# Analytical Abstracts...

Analytical Abstracts covers all areas of analytical and bioanalytical science, including the latest applications and cutting edge techniques. The database is updated weekly and spans 25 years of research sourced from over 100 international journals.

## ...the first stop for analytical scientists

New and improved features include:

Improved search features with a basic search and optional advanced searches by index term and bibliographic data. You can also browse by subject area.

Results can be sorted and displayed in different formats and have additional information embedded in the text accessed via pop up boxes.

Results can be exported to reference management software and to email.
