

Call for Papers

Energy & Environmental Science

'Energy is the most important scientific and technological challenge facing humanity in the twenty-first century. Energy security and environmental security have come to the forefront of both global and national priorities. This journal aims to bridge the various disciplines involved with energy and the environment, providing a forum for disclosing research results and discourse on this critical field.' Professor Nathan Lewis

Launching Summer 2008

Energy & Environmental Science will publish high quality research from aspects of the chemical sciences relating to energy conversion and storage, alternative fuel technologies and environmental science. It will contain a full mix of primary articles, communications and reviews.

The current issue in 2008/9 will be free online. Institutional access to all 2008/9 content will be available following registration at www.rsc.org/ees_registration

Contact the Editor, Philip Earis, at ees@rsc.org or visit the website for more details.
