## Chemical Communications

2 JANUARY 1974

JCCCAT (1) 1-36 (1974)

### CONTENTS

Page

- 1 Notice to Authors, 1974
- 3 A Novel and Efficient Nuclear Magnetic Resonance Shift Reagent: Tetrakis-(1,1,1-trifluoro-4-phenylbutane-2,4-dionato)uranium  
**Gérard Folcher, Jacques Paris, Pierre Plurien, Paul Rigny, and Edgar Soulié**
- 4 A New Class of Binuclear Rhenium(II) Halide Species Containing a Strong Metal-Metal Bond: the Chemistry and Structure of Complexes of the Type  $Re_2X_4(PR_3)_4$   
**F. Albert Cotton, Bertram A. Frenz, Jerry R. Ebner, and Richard A. Walton**
- 5  $\pi$ -7e-Cycloheptatrienyl Molybdenum Chemistry: a Versatile Preparative Route  
**Edwin F. Ashworth, Malcolm L. H. Green, and John Knight**
- 6 2-Methylenebicyclo[3,2,1]octa-3,6-diene, a Bishomofulvene-type Structure  
**Mitsuru Sakai**
- 7 Hot Atom Isotope Effect in D-Abstraction from Alkanes  
**David J. Malcolm-Lawes**
- 9 Evidence for Reversible  $\alpha$ -Hydrogen Abstraction from Methyl-cobalt and -rhodium Complexes Involving the Possible Formation of Hydrido-carbene Intermediates  
**Lyong Sun Pu and Akio Yamamoto**
- 10 Reaction of Dimethylvinylidene with  $\gamma\gamma$ -Dimethylallyl Methyl Sulphide. Synthesis of 2,5,5-Trimethylhepta-2,6-diene-4-one (Artemisia Ketone)  
**Didier Michelot, Gerard Linstrumelle, and Sylvestre Julia**
- 11 Synthesis of Piloquinone, a Phenanthrene-9,10-quinone from *Streptomyces pilosus*  
**Terry M. Crisp, Robin G. F. Giles, and Melvyn V. Sargent**
- 12 Removal of Sulphur-protecting Groups in the Synthesis of a 4-Mercapto- $\beta$ -lactam  
**M. D. Bachi and K. I. Ross-Petersen**
- 13 Mechanism of Cobalt Dithiolene Complex Catalysis of Thiol Autoxidation in Acidic Acetonitrile Solution  
**Ian G. Dance, Ronald C. Conrad, and Jennings E. Cline**
- 15 C-25 Hydroxylation of Cholesterol Derivatives  
**Avner Rotman and Yehuda Mazur**
- 15 Rearrangements in Fluxional Trifluorophosphoranes:  $^1H$  Nuclear Magnetic Resonance Study  
**John W. Gilje, Ron W. Braun, and Alan H. Cowley**
- 17 Rates and Kinetic Hydrogen Isotope Effects for the Ionization of Phenylnitromethane  
**James R. Keefe and N. H. Munderloh**
- 19 Apicophilicity of Substituent Groups and the Structures of some Trigonal Bipyramidal Trifluoromethylphosphoranes  
**R. G. Cavell, D. D. Poulin, K. I. The, and A. J. Tomlinson**
- 21 Synthesis of  $\alpha\beta$ -Unsaturated Ketones via [2,3] Sigmatropic Rearrangement of  $\gamma$ -Chloroallyl Sulfoxides and Amine Oxides  
**Peter T. Lansbury and Joseph E. Rhodes**
- 22 Stability of Triphenylborathiin (PhBS) $_3$   
**Richard H. Cragg and Alan F. Weston**
- 23 Deoxygenative Reduction of Nitroxyl and Carbonyl Groups  
**James L. Levenson and Leonard Kaplan**
- 23 Reaction of Dinitrogen Tetroxide with Octaethylhemin in Dichloromethane: A *meso*-Substitution Reaction  
**James C. Fanning, T. L. Gray, and N. Datta-Gupta**
- 24 Theoretical and Experimental Determination of the Indirect Nuclear Magnetic Fluorine-Fluorine Coupling Anisotropy in *trans*-Difluoroethene  
**G. J. Den Otter, C. MacLean, C. W. Haigh, and Stephen Sykes**
- 25 Synthesis and Crystal Structure of An Unusual Trinuclear Ferracyclobutene Complex,  
 $Fe_3(CO)_8[Ph_2PC_4(CF_3)_2](PPh_2)$   
**Mathai Mathew, Gus J. Palenik, Arthur J. Carty, and Hang N. Paik**

Contents—continued overleaf

Contents—*continued*

- 27 Cyclisation of Unsaturated Alkoxyphosphoranyl Radicals in Solution  
**Alwyn G. Davies, Maxwell J. Parrott, and Brian P. Roberts**
- 28 Dimeric Quinoline Adduct of Copper(II) Trifluoroacetate: Preparation, Structure, and Magnetism  
**James A. Moreland and Robert J. Doedens**
- 29 4,4-Bis-( $\pi$ -cyclopentadienyl)-2,2-dimethyl-1-trimethylsilylaza-2-sila-4-titanacyclobutane: a Novel Organometallic Heterocycle  
**Charles R. Bennett and Donald C. Bradley**
- 30 Biosynthetic Implications of the Sterol Content of Ergosterol-deficient Mutants of Yeast  
**Derek H. R. Barton, John E. T. Corrie, David A. Widdowson, Martin Bard, and Robin A. Woods**
- 31 Zinc(II) Catalysed Pathways for the Enolization of Oxalacetate  
**William D. Covey and Daniel L. Leussing**
- 33 Electrochemistry of Biphenylenes. Observation of Biphenylene Cation Radicals and Dications  
**Alvin Ronlán and Vernon D. Parker**
- 34 Disproportionation of Propene by a Heterogeneous Catalyst Derived from Hexamethyltungsten  
**Walter Mowat, John Smith, and David A. Whan**
- 35 *cis*-Influence in Platinum(II) Complexes Demonstrated by  $^{129}\text{I}$  Mössbauer Spectroscopy  
**Barrie W. Dale, Roger J. Dickinson, and R. V. (Dick) Parish**
- 36 2-(2-Imidazolyl)acetophenones *via* Aroylation of *N*-Substituted 2-Methylimidazoles  
**Leonardus A. M. Bastiaansen, Antonius A. Macco, and Erik F. Godefroi**
