

Journal of The Chemical Society

Chemical Communications

16 MARCH 1977

JCCCAT (6) 161-192 (1977)

CONTENTS

- Page
- 161 Synthetic Method for the Preparation of Monosubstituted Tetrathiafulvalenes **Dennis C. Green**
- 162 Asymmetric Synthesis of β -Hydroxy-acids Using Chiral α -Sulphinyloxyester Enolate Ions
Charles Mioskowski and **Guy Solladié**
- 163 Nonclassical Selenoloseleophens **Salo Gronowitz** and **Andreas Konar**
- 164 Cathenamine, a Central Intermediate in the Cell Free Biosynthesis of Ajmalicine and Related Indole Alkaloids
J. Stöckigt, H. P. Husson, C. Kan-Fan, and M. H. Zenk
- 166 Oxyselelation of Olefins by the Use of Aryl or Alkyl Selenocyanates and Copper or Nickel Halides
Akio Toshimitsu, Sakae Uemura, and Masaya Okano
- 167 Crystal Structures of Four Complexes of Quinquedentate Macrocyclic Ligands with Novel Co-ordination Geometries Containing Five-co-ordinate Silver(I), Six-co-ordinate Cadmium(II), Six-co-ordinate Mercury(II), and Seven-co-ordinate Cadmium(II)
S. Martin Nelson, Stephen G. McFall, Michael G. B. Drew, A. Hamid bin Othman, and Nigel B. Mason
- 169 Preparation and Characterization of Alkylmagnesium Hydrides **E. C. Ashby** and **A. B. Goel**
- 170 Transannular Ring Stabilisation by Hydrogen Bonding in Trianthranilide Derivatives. X-Ray Structures of 5,11-Dibenzyl- and 5,11-Dimethyl-tribenzo[*b,f,j*][1,5,9]triazacyclododecine-6(5*H*),12(11*H*),18(17*H*)-trione (*NN'*-Dibenzyl- and *NN'*-Dimethyl-trianthranilide)
David J. Williams
- 171 Homosolvolyis **Hamish Low, Ian Paterson, John M. Tedder, and John Walton**
- 172 Ferromagnetic Monoalkylammonium Tetrabromochromates(II)
Leslie F. Larkworthy and **Ahmad Yavari**
- 173 Configurationally Rigid Tetrahedral Nickel Complexes used for Conformational Analysis of Cycloalkene Units
Rudolf Knorr and **Alfons Weiss**
- 174 Anion Solvation in Protic Solvents **Susan E. Jackson, Imants M. Strauss, and Martyn C. R. Symons**
- 175 Hydrolysis of Isoalloxazines (Flavins) in the Ground and Excited States
Fumio Yoneda, Yoshiharu Sakuma, and Kazuo Shinozuka
- 177 Synthesis of a New Class of Highly Conducting Organic Ion-Radical Salts
D. J. Sandman, A. J. Epstein, T. J. Holmes, and A. P. Fisher III
- 178 Oxidative Addition of Triarylcyclopropenium Bromides to Pd⁰ and Pt⁰ Compounds: the Synthesis and X-Ray Structure of Pd⁰{ μ -[η^3 -C₃(Ph)(*p*-MeOC₆H₄)₂]₂}(acac)₂}(Pd-Pd-Pd)
Alan Keasey, Pamela M. Bailey, and Peter M. Maitlis
- 180 Change from a σ -Alkyl Intermediate to a Carbonium Ion Intermediate in Reactions of Olefins on a Molybdenum Sulphide Catalyst
Toshio Okuhara, Ken-ichi Tanaka, and Koza Tanabe
- 181 Reaction of *N*-Propyl-1,4-dihydronicotinamide with Ferricyanide Ion
Tadashi Okamoto, Atsuyoshi Ohno, and Shinzaburo Oka
- 182 Tritium Exchange between the Aldehyde Group and Sodium Borohydride during the Reduction of Benzaldehyde in Dimethyl Sulphoxide Solution
Chitra Adams, Victor Gold, and David M. E. Reuben
- 183 18-Crown-6-Potassium-Ethyl Acetoacetate Enolate. X-Ray Structure Determination
Claude Riche, Claudine Pascard-Billy, Christian Cambillau, and Georges Bram
- 184 Dynamic ¹H and ¹⁵N Nuclear Magnetic Resonance of Free-base ¹⁵N-Porphyrins
Charles S. Irving and **Aviva Lapidot**
- 186 Polarized Specular Reflectance of the New One-dimensional 'Metals' K_{1.75}[Pt(CN)₄]·1.5H₂O, Rb_{1.75}[Pt(CN)₄]·1.5H₂O, and Cs_{1.75}[Pt(CN)₄]·1.5H₂O
Ronald L. Musselman and **Jack M. Williams**
