

**Corrigendum****Heteronuclear Mixed-valence Compounds: Transition Metal Carbonyl Clusters with Multiple Redox Centres**

Stephen Colbran, Brian H. Robinson, and Jim Simpson

*J. Chem. Soc., Chem. Commun.*, 1982, 1361.

On p. 1362,  $\Delta\bar{\nu}_4(\text{obs.})$  should be  $2.4 \times 10^3 \text{ cm}^{-1}$  (not  $2.1 \times 10^3 \text{ cm}^{-1}$ ) and the upper limit for  $\nu_0$  should be  $3.9 \times 10^3 \text{ cm}^{-1}$  (not  $6.45 \times 10^3 \text{ cm}^{-1}$ ).
