

**Corrigendum****Dictyotetraene, a New Diterpenoid from a *Dictyota* sp. (Chromophycota, Dictyotaceae) of the North Brittany Sea****Beniamino Demattè, Antonio Guerriero, and Francesco Pietra***J. Chem. Soc., Chem. Commun.*, 1985, 391.

In Scheme 1, using the carbon numbering for (1), the structural formula on the top right should have a methyl group on C(7) while the structural formula on the bottom right should have both a methyl group at C(7) and another double bond, C(10a)–C(10b). Also, the side chain in (2) is meant to terminate with a =CMe<sub>2</sub> group.
