

# Consult a single source for the world's synthetic chemistry literature...

## **MOS** Methods in Organic Synthesis

A monthly current awareness bulletin giving world-wide coverage of the field of synthetic chemistry!

**MOS** contains over 200 items per issue drawn from the world's major primary organic chemistry journals, and published within weeks of the appearance of the original documents!

**MOS** items include titles, bibliographic details and structural diagrams or line formulae of reaction schemes with details of conditions, yields and scope!

**MOS** issues each contain five comprehensive indexes, cumulated annually, to help you retrieve items of interest more easily!
