

### **Corrigenda**

#### **Preparation and Structure of Cs[TcN(O<sub>2</sub>)<sub>2</sub>Cl]; the First Example of a Nitridoperoxo Complex**

**John Baldas, Silvano F. Colmanet, and Maureen F. Mackay**

*J. Chem. Soc., Chem. Commun.*, 1989, 1890.

The crystal data footnote should read: the atomic co-ordinates, bond lengths and angles, and thermal parameters have been deposited at the Institut für Anorganische Chemie, Bonn. See Notice to Authors, Issue No. 1.

#### **On the Stability and Bonding in Bis( $\eta$ -arene)lanthanide Complexes**

**David M. Anderson, F. Geoffrey N. Cloke, P. Anthony Cox, Norman Edelstein, Jennifer C. Green, Tanya Pang, Ausama A. Sameh, and George Shalimoff**

*J. Chem. Soc., Chem. Commun.*, 1989, 53.

The final paragraph should read: we are particularly indebted to Dr. A. K. Abdul-Sada for determining the fast atom bombardment mass spectra.
