Preliminary Accounts of Important New Work  
in Chemistry from the USSR and Elsewhere

- A prestigious new journal to be launched in January 1991
- The result of a collaborative venture between The Academy of Sciences of the USSR and The Royal Society of Chemistry
- Similar in scope and content to its highly successful 'sister' publication – Chemical Communications
- Primary publication in English of original Soviet Chemistry
- Two stages of rigorous refereeing to maintain the highest possible standards
- Rapid publication of papers – within three months of receipt in the UK
- News section, containing details of forthcoming international conferences, letters, and information about The Academy of Sciences of the USSR
