

Enantioselective total synthesis of a novel polyketide natural product (+)-integrasone, an HIV-1 integrase inhibitor

Goverdhan Mehta and Subhrangsu Roy

Chem. Commun., 2005, 3210–3212 (DOI: 10.1039/b502024g)

The structure of the Merck compound L-870812, **2**, is incorrect. The correct structure is given below. The error in drawing the structure has no bearing on the results reported in the paper.

The Royal Society of Chemistry apologises for this error and any consequent inconvenience to authors and readers.
Additions and corrections can be viewed online by accessing the original article to which they apply.

Organic & Biomolecular Chemistry

A major peer-reviewed international, high quality journal covering the full breadth of synthetic, physical and biomolecular organic chemistry.

Publish your review, article, or communication in OBC and benefit from:

- The fastest times to publication (80 days for full papers, 40 days for communications)
- High visibility (OBC is indexed in MEDLINE)
- Free colour (where scientifically justified)
- Electronic submission and manuscript tracking via ReSource (www.rsc.org/ReSource)
- A first class professional service
- No page charges

Green Chemistry

Cutting-edge research for a sustainable future

Publishing the latest research that reduces the environmental impact of the chemical enterprise by developing alternative sustainable technologies.

- The only research journal that deals exclusively with green chemistry and related issues
- Rapid publication, ensuring speedy access to the latest information
- Impact factor: 3.50
