

don't publish online in the dark...

let our open linking network
shed some light.

This journal is CrossRef-ed! As a scientist or scholar navigating digital content, you've come to expect dynamic linking from citation to original source. As an author, you expect ready dissemination of your work to others. CrossRef is a collaborative, cross-publisher reference linking network that allows users to click on a citation and be taken directly to the full-text location. An independent, non-

profit organization that employs open standards, CrossRef was established in cooperation with leading research publishers and the International DOI Foundation. Since the service went live in 2000, CrossRef has linked millions of articles from thousands of journals. Find out more at www.crossref.org, and make sure all your electronically published work is CrossRef-enabled.
