Lust and Love

Is it more than chemistry?

By Gabriele and Rolf Froböse

**Why do people fall in love? Why do we find some people attractive?
How does our physiology affect the way we feel?**

Lust and Love: Is it more than chemistry? provides answers to some of these questions through the eyes of science. Covering research from the fields of chemistry, biochemistry, neurology, psychiatry, psychology, physics and medicine the book looks at our current knowledge of the science behind these feelings.
