

Take the global perspective

Chemistry World, the award-winning monthly magazine from the Royal Society of Chemistry, has something for everyone with daily online news, articles on all aspects of the chemical sciences, job vacancies and award-winning columnists.

Named Best monthly and business professional magazine of the year at the 2006 PPA Magazine Awards, *Chemistry World* reflects the ubiquitous importance of the chemical sciences in the world today, providing a more complete picture and informed opinion on the issues that matter.

Daily web updates and e-mail alerts give the magazine a strong online presence that enhances and expands on the monthly print issue. Plus, with the *Chemistry World* Podcast and Blog, there's a chance to go interactive.

RSC Comprehensive Series in Photochemical & Photobiological Sciences

Initiated by the European Society for Photobiology, this series provides comprehensive overviews on specific areas of photoscience. It gives in-depth coverage of the very different fields related to light effects and embraces both well-established and emerging areas.

New Reference Work

Primary Processes of Photosynthesis

Edited by Gernot Renger

In this comprehensive two part set, the Editor has brought together contributions from numerous leading scientific experts from across the globe to provide a compendium of information.

- The most up-to-date understanding of the primary processes of photosynthesis.
- A summary of current knowledge on the mechanisms of light harvesting, charge separation, electron transport, water cleavage and ATP synthesis.
- High quality structure information at atomic resolution.

Well suited for all those working in the fields of Photochemistry, Bio-organic Chemistry, Bio-inorganic Chemistry, Crystallography, Biological Sciences, Biochemistry and related disciplines.
