Introducing Professor Mike Doyle

Associate Editor for Organic Chemistry

Michael P. (Mike) Doyle is Professor and Chair of the Department of Chemistry and Biochemistry at the University of Maryland, College Park. He has been the recipient of numerous awards, including the George C. Pimentel Award for Chemical Education in 2002 and the Arthur C. Cope Scholar Award in 2006. He has written or coauthored ten books, including *Basic Organic Stereochemistry*, 20 book chapters, and he is the co-author of more than 270 journal publications. The inventor of chiral dirhodium carboxamidate catalysts known as "Doyle catalysts," his research is focused on applications with metal carbene transformations, Lewis acid catalyzed reactions, and selective catalytic oxidations.

Submit your work to *ChemComm*

Professor Doyle will be delighted to receive submissions from North America in the field of organic chemistry. Submissions to *ChemComm* are welcomed via ReSource, our homepage for authors and referees.

"*ChemComm* is an outstanding forum for the communication of significant research in the chemical sciences, and I am honoured to be a member of the editorial family. I continue to be amazed with the breadth of exciting chemistry that is being submitted to *ChemComm* and the high level of professionalism that is found at *ChemComm*."
