Metallomics

Integrated biometal science

This timely new journal will cover the research fields related to metals in biological, environmental and clinical systems and is expected to be the core publication for the emerging metallomics community. The journal will be supported by an international Editorial Board, chaired by Professor Joseph A. Caruso of the University of Cincinnati/Agilent Technologies Metallomics Center of the Americas.

Metallomics will publish six issues in the first year, increasing to 12 issues in 2010. The journal will contain a full mix of research articles including Communications, Reviews, Full papers, and Editorials. From launch, the latest issue will be freely available online to all readers. Free institutional access to previous issues throughout 2009 and 2010 will be available following a simple registration process.
