## Synthesis of the C(1)–C(11) Polyene Fragment of Apoptolidin with a New Sulfur Dioxide-Based Organic Chemistry

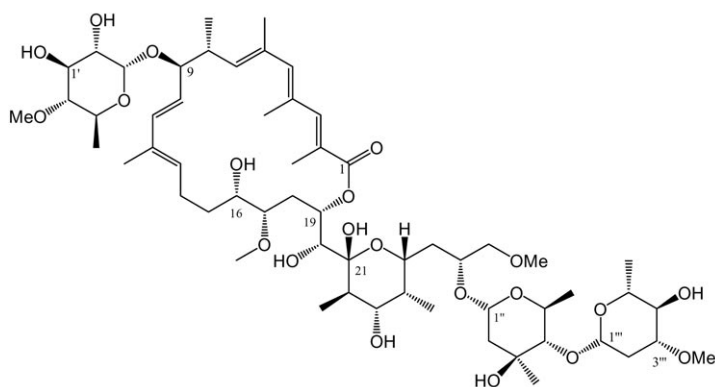

*Chem. Eur. J.*, **2005**, *11*

DOI: 10.1002/chem.200500165

The authors apologize for misdrawing the apoptolidin structure in Figure 1 of this paper. We thank Dr. Kate Longcore, a member of Professor P. Wender's group, for drawing our attention to the incorrect configuration at the C3''' center. The corrected structure is shown below.

Misdrawn Figure 1

Apoptolidin
