

SUBJECT INDEX

- Acidity function, H_0 , 1, 935
- Acidity functions, 1
- Acids, fatty, recent developments in the synthesis of, 191
- phosphonic, preparation and properties of, 479
- tetrahydrophthalic, 641
- Aromatic nuclei, substitution in, 77, 123
- Arylthiazathiolium salts, 1011
- Bonding in nitrogen compounds, 1179
- Carbonyl sulfide, 621
- Catalysis, acid, application of the H_0 acidity function to kinetics and mechanisms of, 935
- heterogeneous, and stereochemistry, 895
- Crystals, liquid, 1049
- Electrode systems, potentiometric, in non-aqueous titrimetry, 1159
- Estrogens, artificial, 281
- Fatty acids, recent developments in the synthesis of, 191
- H_0 acidity function, 1
- application to kinetics and mechanisms of acid catalysis, 935
- H_0 and related indicator acidity functions, 1
- Herz reaction, 1011
- Heterocycles, aza-aromatic, 525
- Homolytic aromatic substitution, 123
- Hydrazine compounds, quaternized, 1021
- Isocyanate chemistry, recent advances in, 47
- Isotopic tracer investigations of mechanism and structure in inorganic chemistry, 743
- Kolbe-Schmitt reaction, 583
- Magnesium, unipositive, reductions by, 417
- Mechanism in inorganic chemistry, isotopic tracer investigations of, 743
- Mesomorphic state, 1049
- Metalations with organosodium compounds, 867
- Nitrogen compounds, valence bonding in, 1179
- Nuclei, aromatic, substitution in, 77, 123
- Organosodium compounds, metalations with, 867
- Phenanthridine, comparison with other aza-aromatic heterocycles, 525
- Phosphonic acids, preparation and properties of, 479
- Photoluminescence of complex organic molecules in the vapor phase, 439
- Polyethylene; preparation, structure, and properties, 665
- Reaction, Herz, 1011
- Kolbe-Schmitt, 583
- Reduction by unipositive magnesium, 417
- State, mesomorphic, 1049
- Stereochemistry and heterogeneous catalysis, 895
- Structure in inorganic chemistry, isotopic tracer investigations of, 743
- Substitution in aromatic nuclei, 77, 123
- Synthesis of fatty acids, recent developments in, 191
- Tetrahydrophthalic acids, 641
- Titrimetry, nonaqueous, potentiometric electrode systems in, 1159
- Tracers, isotopic, in investigations of mechanism and structure in inorganic chemistry, 743
