
ANNOUNCEMENT

Chemical Senses announces new Editor-in-Chief

We are pleased to announce that from April 2009, Professor Wolfgang Meyerhof will begin his role as Editor-in-Chief for *Chemical Senses*.

Professor Meyerhof heads the Department of Molecular Genetics at the Institute for Human Nutrition, Potsdam University. He is the author of more than 150 journal articles and book chapters, has published widely on the molecular mechanisms involved in taste, and has been a strong advocate and participant in chemosensory-related organisations and meetings.

Professor Meyerhof enthusiastically welcomes this appointment as an opportunity to both 'serve and advance the chemical senses community in its entirety'.
