

INDEX, 1948

Authors of Articles :—

- Bell, R. P., and Emeléus, H. J., the boron hydrides and related compounds, 132
- Bergel, F., and Morrison, A. L., synthetic analgesics, 349
- Cook, A. H., the chemistry of the penicillins, 203
- Cottrell, T. L., and Sutton, L. E., the interpretation of bond properties, 260
- Duncan, J. F., and Lister, B. A. J., ion exchange, 307
- Gent, W. L. G., the polarity of the C-H bond, 383
- Gillespie, R. J., and Millen, D. J., aromatic nitration, 277
- Hardy, D. V. N., and Megson, N. J. L., the chemistry of silicon polymers, 25
- Hartley, G. S., state of solution of colloidal electrolytes, 152
- Haynes, L. J., physiologically active unsaturated lactones, 46
- Hughes, E. D., steric hindrance, 107
- Paneth, F. A., the preparation of radio-active tracers, 93
- Walsh, A. D., far ultra-violet spectra, ionisation potentials, and their significance in chemistry, 73
- Wells, A. F., the structures of metallic oxides, 185
- Wilson, H. N., and Bremner, J. G. M., disproportionation in inorganic compounds, 1
- Acetaldehyde, spectrum of, 76
- Acetyl nitrate, nitration by, 306
- Acetylenes, orbital structure of, 78
- Adsorption, exchange, 312
- Aggregation in colloidal electrolytes, 177
- Aglycones, 64
- β -Alumina, structure of, 197
- Aluminium borohydride, 137 hydride, 139
- Aluminosilicates, ion exchange in, 308
- Amberlites, 311
- Amidones, 370
- Ammoniates of boron hydrides, 135
- Amphipathy, 179
- n*-Ampylenicillin, 204
- Analgesic activity and constitution, 380
- Analgesics, properties of, 350 synthetic, 349
- Analysis, ion-exchange in, 342
- Anionic exchangers, 312
- Antalgics, 350, 351
- Anthelmintics, 67
- Antibiotic activity of lactones, 49
- Antibiotics from fungi, 56
- Antimony oxides, structure of, 193
- oxy-compounds, structure of, 199
- Antipyretics, 351
- Aromatic compounds in sulphuric acid solution, 290
- nitration of, 277
- Arsenic oxides, structure of, 193
- 2-Azetidinones, 243
- Baker-Nathan effect, 390
- Bending moments of C-H bonds, 388
- Benzene, bond order in, 265
- orbital structure and spectra of, 83
- Benzofuroquinolines, 363
- Benzoyl nitrate, nitration by, 306
- Benzylpenaldic acid, 216
- Benzylpenicillenic acid, methyl ester, 220
- Benzylpenicillin, 204
- Benzylpenicilloic acid, 216
- Benzylisopenillic acid, 213
- Benzylpenilloaldehyde, 208
- Benzylpenilloic acid, 216
- Benzylpenillonic acid, and its methyl ester, 225
- Beryllium borohydride, 137
- Bismuth oxide, structure of, 193, 194
- Blastocholines, 58
- Bond multiplicity, 264
- Bond order, 264
- Bond properties and hybrid composition, 387
- interpretation of, 260
- Bonds, carbon-carbon, 269
- carbon-hydrogen, length of, 261
- polarity of, 383
- length and strength of, 260
- oxygen-hydrogen, 262
- Borine compounds, 134, 135
- Borohydrides, 137
- Boron hydrides, 132
- Calcium fluoride, structure of, 194
- Carbon dioxide, orbital structure of, 85
- oxides, 11
- Carbon-carbon bond orders, 269
- Carbon-hydrogen bond, length of, 261
- polarity of, 383
- Cardiac drugs, 63
- Catalysts, ion-exchangers as, 344
- Cationic exchangers, 308
- Cellulose xanthate, in alkaline solution, 152
- Coal exchangers, sulphonated, 309
- Codeine, 352, 355
- Colloidal electrolytes, state of solution of, 152
- Copper oxides, structure of, 189, 190
- Coumarin, blastocholine activity of, 58

- Coumarins as fish poisons, insecticides, etc., 60
 Crepin, 55
Crepis taraxacifolia, antibiotic from, 55
 Crystalline oxides, atomic structure of, 185
 Cuprous compounds, 8
- Decaborane, 132
 Demerol, 363
 Dibenzfurans, 362
 Diborane, 132
 Dicodid, 355
 Dicoumarin, 56, 69
 Dienes, cyclic, spectra and ionisation potentials of, 82
 Dihydropyridic acid, 204
 Dilaudid, 355
 Dinitrogen pentoxide, nitration by, 305
 Dionin, 355
 Diphenylpropylamines, 369
 Dipole moments and polarity, 387
 Disproportionation in inorganic compounds, 1
 Dolantin, 363
 Donnan equilibrium for exchangers, 330
 Dowex, 50, 311
Dugesia tigrina, culture of, in δ -hexenolactone, 48
 Dyes, aggregation of, 182
- Earths, rare, separation of, 340
ortho-Effect, 121
 Electrochemistry of colloidal electrolytes, 167
 Electrolytes, colloidal, state of solution of, 152
 Elution from ion-exchange columns, 338
 Ethers, dipole moments of, 387
 Ethyl nitrate, nitration by, 306
 Eucodal, 355
 Euphorigenics, 350, 351
 Exchange capacity and structure, 314
 Exchange isotherms, 316, 322
 Exchangers, 308
- Fish poisons, 60
 Flavacin, 204
 Fungi, antibiotics from, 56
- Gigantic acid, 204
 Gladiolic acid, 56
 Greases, silicone, 40
 Growth, inhibition of, by unsaturated lactones, 46, 58
- Hæmorrhagics, 69
 Halogen compounds, 20
 Heart poisons, 63
n-Heptylpenicillin, 204
 Heroin, 355
 Hexaborane, 132
 δ -Hexenolactone, growth inhibition by, 48
 Hybrid composition and bond properties, 387
- Hybridisation, orbital, 274
 Hydrogen peroxide, decomposition of, 5
p-Hydroxybenzylpenicillin, 204
- Industry, silicones in, 39
 Inorganic compounds, disproportionation in, 1
 Insecticides, 60
 Ion exchange, 307
 Ion-exchange columns, separations by, 335
 Ionic oxide structures, 188
 Ionisation potentials, 73
 Isotopes, separation of, 341
- Kawa-kawa, 72
 Kinetics of ionic exchange, 327
- β -Lactams, 243
 Lactones, unsaturated, physiologically-active, 46
 Law of mass action applied to exchangers, 320
 Lead oxides, structure of, 190, 191
Lebistes reticulatus, effect of coumarins on, 62
 Lithium aluminium hydride, 139
 borohydride, 137
 gallium hydride, 139
 isotopes, separation of, 341
- Manganese compounds, 22
 Mercurous compounds, 9
 Metallic oxides, structure of, 185
 Methane, polarity of bonds in, 385
N-Methylmorphinan, 376, 379
 Methylsiloxane polymers, 32
 Morphinan, 375
 Morphine and its derivatives, 352
 attempted synthesis of, 375
 Mycophenolic acid, 56
- Nitracidium ion, 305
 Nitration, aromatic, 277
 in nitric acid, 304
 in organic solvents, 302
 Nitric acid, nitration by, 304
 nitration by mixed sulphuric acid and, 295
 solutions in organic solvents, 289
 solutions in sulphuric oleum, 286
 Nitrobenzene, sulphuric acid compound with, 293
 Nitrogen compounds, 13
 Nitronium ion, existence of, 279
 nitration by, 295
 Nuclides, radioactive, 94
- Olefins, orbital structure of, 76
 Orbitals, hybridisation of, 274
 theory of, 74
 Oxazoles, 234
 Oxazolones, 234
 Oxides, complex, 194
 metallic, structure of, 185
 Oxygen-hydrogen bond, 262

- Pain, analgesia and, 349
Patulin, 53
Penaldic acids, 210
Penicillamine, 205
Penicillaminic acid, 206
Penicillic acid, 51
Penicillin, inactivation of, 225
 ψ -Penicillin, 218
Penicillins, chemistry of, 203
 synthesis of, 247
Penicilloic acids, 210
Penillic acid, 203
*iso*Penillic acids, 212
Pentaborane, 132
 δ -Pentenolactone, growth inhibition by, 48
Pent-2-enylpenicillin, 204
Permutites, 308
Pethidine, 363
Phenanthrenes, 362
4-Phenyl-1-methylpiperidine-4-carboxylic acid, ethyl ester, analgesic, 357
4-Phenylpiperidines, 363
Phosphorus compounds, 16
Physico-chemical constants, determination of, by ion-exchange methods, 346
Plant growth-inhibitors, 58
Poisons, cardiac, 63
 fish, 60
Polarity and dipole moments, 387
 effect of, on bond properties, 273
Polymers, solubility of, 162
Proteins, solubility of, 167
Protoanemonin, 50
Pyrrole, orbital structure and spectrum of, 84

Radioactive tracers, 93
Reaction mechanism in relation to steric hindrance, 123
Resinous exchangers, 309
Resins, silicone, 41
 synthetic, as exchangers, 309, 318
Rhenium trioxide, structure of, 198
Rubber, silicone, 40

Santonin, anthelmintic activity of, 67
Seeds, inhibition of germination of, by lactones, 58

Selenium dioxide, structure of, 192
Separation by ion-exchange, 333
Siliceous exchangers, 308
Silicon organic compounds, 27
Silicon polymers, 25
Silicones, 26, 39
Soap solutions, electrochemical properties of, 168
Solubility of colloidal electrolytes, 160
Solvents, organic, nitration in, 302
Sorbus aucuparia, berries, blastocholine from, 58
Spectra, far ultra-violet, 73
 infra-red absorption, and bending moments, 388
 molecular, 76
Spiraea aruncus, antibacterial lactone from, 55
Steric hindrance, 107
Sugar purification, ion-exchange in, 333
Sulphur compounds, 18
Sulphur dioxide, orbital structure of, 86
Sulphuric acid, nitration by mixed nitric acid and, 295
 solutions of aromatic compounds, 290
Sulphuric oleum, nitric acid solutions in, 286

Tellurium dioxide, structure of, 192
Tetraborane, 132
Tetrahydrocannabinols, 351
Thebaine, 352
Thiazolidines, 231
Thiazolines, 231
Thiophen, spectrum and structure of, 85
Tissues, animal, growth inhibition of, 46
Titration curves of exchangers, 324
Toluene, polarity of methyl C-H bonds in, 390
Trace analysis, ion-exchange in, 344
Tracers, radioactive, 93
Transport numbers of colloidal ions, 169

Viscose, instability of, 152

Water purification, ion-exchange in, 333
Water-repellent surfaces, 44
