

# Quarterly Reviews

No 3 Vol 25 1971

	Page
<b>X-Ray Emission Spectroscopy</b> By D. S. Urch	343
<b>Acidities of Carbon Acids</b> By J. R. Jones	365
<b>Metal-ion Control in the Synthesis of Schiff Base Complexes</b> By L. F. Lindoy	379
<b>The Adiabatic Born–Oppenheimer Approximation</b> By C. J. H. Schutte	393
<b>The Oxidation of Organic Nitrogen Compounds with Lead Tetra-acetate</b> By J. B. Aylward	407
<b>Applications of the Chemical Reactions of Proteins in Studies of their Structure and Function</b> By R. B. Freedman	431

**The Chemical Society London**
