

# Errata

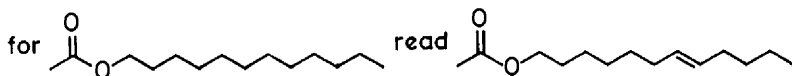

1973, Vol. 2, Issue No. 1

In the article 'Insect Attractants of Natural Origin', by D. A. Evans and C. L. Green, errors arose in two formulae between proof stage and going to press.

Page 78, Table 1 (b)

[N.B. Recent publications<sup>1,2</sup> propose a revision of stereochemistry for this molecule and furthermore state that a synthetic mixture of the four possible stereoisomers is inactive in field trials.]
