<b>THE MELDOLA MEDAL LECTURE</b>	
<b>Chemical Aspects of Glycoproteins, Proteoglycans, and Carbohydrate-Protein Complexes of Human Tissues</b> By John F. Kennedy	355
<b>Chirality in Carbonium Ions, Carbanions, and Radicals</b> By J. W. Henderson	397
<b>Chemistry of Azidoquinones and Related Compounds</b> By H. W. Moore	415
<b>Chemistry - a Topological Subject</b> By R. W. Jotham	457
<b>The Brønsted Relation - Recent Developments</b> By A. J. Kresge	475

**The Chemical Society London**

## Chemical Society Reviews

*Chemical Society Reviews* appears quarterly and comprises approximately 25 articles (ca. 600 pp) per annum. It is intended that each review article shall be of interest to chemists in general, and not merely to those with a specialist interest in the subject under review. The articles range over the whole of chemistry and its interfaces with other disciplines.

Although the majority of articles are specially commissioned, the Society is always prepared to consider offers of articles for publication. In such cases a short synopsis, rather than the completed article, should be submitted to The Editor, Reports and Reviews Section, The Chemical Society, Burlington House, Piccadilly, London, W1V 0BN.

Members of The Chemical Society may subscribe to *Chemical Society Reviews* at £2.00 per annum (beginning 1974, £3.00 per annum); they should place their orders on their Annual Subscription renewal forms in the usual way.

Non-members may order *Chemical Society Reviews* for £8.00 per annum (beginning 1974, £10.00 per annum) (remittance with order) from:

The Publications Sales Officer, The Chemical Society, Blackhorse Road, Letchworth, Herts., SG6 1HN, England.
