
Chemical Society Reviews

Vol 3 No 4 1974

	Page
Enzymes in Organic Synthesis By C. J. Suckling and K. E. Suckling	387
CENTENARY LECTURE	
Rotationally and Vibrationally Inelastic Scattering of Molecules By J. P. Toennies	407
Preparation of Organoboranes: Reagents for Organic Synthesis By K. Smith	443
Electron Scattering Spectroscopy By I. C. Walker	467
Adamantane Rearrangements By M. A. McKervey	479
LIVERSIDGE LECTURE	
Recent Advances in the Study of Kinetic Hydrogen Isotope Effects By P. R. Bell	513

The Chemical Society London

Chemical Society Reviews

Chemical Society Reviews appears quarterly and comprises approximately 25 articles (ca. 600 pp) per annum. It is intended that each review article shall be of interest to chemists in general, and not merely to those with a specialist interest in the subject under review. The articles range over the whole of chemistry and its interfaces with other disciplines.

Although the majority of articles are intended to be specially commissioned, the Society is always prepared to consider offers of articles for publication. In such cases a short synopsis, rather than the completed article, should be submitted to The Editor, Reports and Reviews Section, The Chemical Society, Burlington House, Piccadilly, London, W1V 0BN.

Members of The Chemical Society may subscribe to *Chemical Society Reviews* at £3.00 per annum; they should place their orders on their Annual Subscription renewal forms in the usual way.

Non-members may order *Chemical Society Reviews* for £10.00 per annum (remittance with order) from:

The Publications Sales Officer, The Chemical Society, Blackhorse Road, Letchworth, Herts., SG6 1HN, England.
