FARADAY LECTURE	
The Electron as a Chemical Entity By F. S. Dainton	323
Bile Pigments By M. F. Hudson and K. M. Smith	363
TATE AND LYLE LECTURE	
Spin-Lattice Relaxation: A Fourth Dimension for Proton N.M.R. Spectroscopy By L. D. Hall	401
Transition Metal Complexes of Synthetic Macrocyclic Ligands By L. F. Lindoy	421
Co-ordination Chemistry of Aryldiazonium Cations: Aryldiazonato (Arylazo) Complexes of Transition Metals, and the Aryldiazonato-Nitrosyl Analogy By D. Sutton	443
The Application of Electrochemical Techniques to the Study of Homogeneous Chemical Reactions By D. Pletcher	471
