
Chemical Society Reviews

Vol 6 No 4 1977

	Page
TILDEN LECTURE	
New Perspectives in Surface Chemistry and Catalysis	
By M. W. Roberts	373
Organoborates in Organic Synthesis: The Use of Alkenyl-, Alkynyl-, and Cyano-borates as Synthetic Intermediates	
By G. M. L. Cragg and K. R. Koch	393
CENTENARY LECTURE	
Systematic Development of Strategy in the Synthesis of Polycyclic Polysubstituted Natural Products: The Aconite Alkaloids	
By K. Wiesner	413
Properties and Syntheses of Sweetening Agents	
By B. Crammer and R. Ikan	431
MELDOLA MEDAL LECTURE	
N.M.R. Spectral Change as a Probe of Chlorophyll Chemistry	
By J. K. M. Sanders	467
Prostaglandins, Thromboxanes, PGX: Biosynthetic Products from Arachidonic Acid	
By K. H. Gibson	489
<i>Corrigendum</i>	511
<i>1977 Indexes</i>	513

The Chemical Society London

Chemical Society Reviews

Chemical Society Reviews appears quarterly and comprises approximately 25 articles (ca. 500 pp) per annum. It is intended that each review article shall be of interest to chemists in general, and not merely to those with a specialist interest in the subject under review. The articles range over the whole of chemistry and its interfaces with other disciplines.

Although the majority of articles are intended to be specially commissioned, the Society is always prepared to consider offers of articles for publication. In such cases a short synopsis, rather than the completed article, should be submitted to The Managing Editor, Books and Reviews Section, The Chemical Society, Burlington House, Piccadilly, London, W1V 0BN.

Members of the Chemical Society may subscribe to *Chemical Society Reviews* at £5.00 per annum (beginning 1978, £6.00 per annum): they should place their orders on their Annual Subscription renewal forms in the usual way.

Non-members may order *Chemical Society Reviews* for £14.00 (\$30) [beginning 1978, £16.00 (\$33)] per annum (remittance with order) from:

The Publications Sales Officer, The Chemical Society, Blackhorse Road, Letchworth, Herts., SG6 1HN, England.
