ROBERT ROBINSON LECTURE Vitamin B₁₂. Retrospect and Prospects	
By A. W. Johnson	125
Computer Resolution of Overlapping Electronic Absorption Bands	
By Barry E. Barker and Malcolm F. Fox	143
Isomerisation Mechanisms of Square-Planar Complexes	
By Gordon K. Anderson and Ronald J. Cross	185
The Chemistry of the Gold Drugs Used in the Treatment of Rheumatoid Arthritis	
By D. H. Brown and W. E. Smith	217
Mechanisms of Reaction between Ultimate Chemical Carcinogens and Nucleic acid	
By D. E. Hathway and G. F. Kolar	241

The Chemical Society London

Chemical Society Reviews

Chemical Society Reviews appears quarterly and comprises approximately 25 articles (ca. 500 pp) per annum. It is intended that each review article shall be of interest to chemists in general, and not merely to those with a specialist interest in the subject under review. The articles range over the whole of chemistry and its interfaces with other disciplines.

Although the majority of articles are intended to be specially commissioned, the Society is always prepared to consider offers of articles for publication. In such cases a short synopsis, rather than the completed article, should be submitted to The Managing Editor, Books and Reviews Section, The Chemical Society, Burlington House, Piccadilly, London, W1V 0BN.

Members of the Chemical Society may subscribe to *Chemical Society Reviews* at £7.50 per annum; they should place their orders on their Annual Subscription renewal forms in the usual way.

Non-members may order *Chemical Society Reviews* for £22.00 (\$50) per annum (remittance with order) from:

The Publications Sales Officer, The Chemical Society, Blackhorse Road, Letchworth, Herts., SG6 1HN, England.
