	Page
<b>MELDOLA MEDAL LECTURE</b>	
<b>The Relationship between Metal Carbonyl Clusters and Supported Metal Catalysts</b>	
By J. Evans	159
<b>Photochemistry and Photocyclization of Aryl Halides</b>	
By J. Grimshaw and A. P. de Silva	181
<b>Singlet Molecular Oxygen</b>	
By A. A. Gorman and M. A. J. Rodgers	205
<b>CHEMICAL ASPECTS OF TRACE CONSTITUENTS OF THE DIET</b>	
<b>I Control and Surveillance of Trace Constituents – Is There a Need?</b>	
By D. G. Lindsay	233
<b>II Sources of, and Analytical Advances in, Trace Inorganic Constituents in Food</b>	
By C. J. Pickford	245
<b>III Advances in the Analysis of Trace Organic Constituents of the Diet, with Particular Reference to Mass Spectrometry</b>	
By J. Gilbert and R. Self	255
<b>IV Nutritional Chemistry of Inorganic Trace Constituents in the Diet</b>	
By J. K. Chesters	270
<b>V Sources and Biogenesis of Trace Organic Constituents of the Diet</b>	
By S. A. Slorach	280

**The Royal Society of Chemistry  
London**
