Professor B. L. Shaw, B.Sc., Ph.D., F.R.S.

Chemical Society Reviews appears quarterly and comprises approximately 20 articles (*ca.* 500 pp) per annum. It is intended that each review article shall be of interest to chemists in general, and not merely to those with a specialist interest in the subject under review. The articles range over the whole of chemistry and its interfaces with other disciplines.

Although the majority of articles are intended to be specially commissioned, the Society is always prepared to consider offers of articles for publication. In such cases a short synopsis, rather than the completed article, should be submitted to The Managing Editor, Books and Reviews Section, The Royal Society of Chemistry, Burlington House, Piccadilly, London, W1V 0BN.

Members of the Royal Society of Chemistry may subscribe to *Chemical Society Reviews* at £10.50 per annum; they should place their orders on their Annual Subscription renewal forms in the usual way.

1981 Annual subscription price, U.K. £31.00, Rest of World £33.00, U.S.A. \$78.00 including air speeded delivery. Application to mail at second class postage rate is pending at Jamaica, N.Y. 11431. Change of address and orders with payment in advance to The Royal Society of Chemistry, The Distribution Centre, Blackhorse Road, Letchworth, Herts SG6 1HN England. Air freight and mailing in the U.S. by Publications Expediting Inc., 200 Meacham Avenue, Elmont, New York 11003. All other despatches outside the U.K. by Bulk Airmail, and Accelerated Surface Post outside Europe.

Note to subscribers. *Regrettably publication of the four issues has still not reverted to the usual quarterly dates. The cause of this is a persisting shortage of articles (the production problems of recent years have been largely overcome) but the setting-up of an Editorial Board should result in an increase in the commissioning of reviews.*
