Corrigenda

Vol 8 No 4 1979

“Non-isoprenoid Long Chain Phenols” by J. H. P. Tyman.

Page 509. Formula (21c). For $C_{13}H_{31-n}$ read $C_{17}H_{35-n}$.

Page 512. Ref. 24 (b). For 1965 read 1968.

Page 514. Formula (34). For $C_{15}H_{37}$ read $C_{15}H_{31}$.

Page 525. Scheme 2. In the structure to the right of formula (42) the single-bonded C—O should be double bonded.

Vol 9 No 3 1980

We regret that in the lists of contents on the title page and back cover of this issue the name of one of the authors, W. E. Waghorne, was accidentally omitted from the last review article listed. This entry should have read:

Thermodynamics of Ion-Solvent Interactions

By B. G. Cox and W. E. Waghorne
