

Volume 21 Issue 4

Pages 215–290

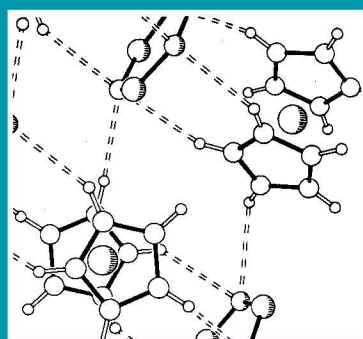

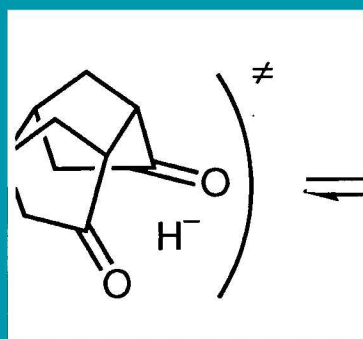

December 1992

**Constructing a Molecular LEGO Set**  
By John P. Mathias and J. Fraser Stoddart 215

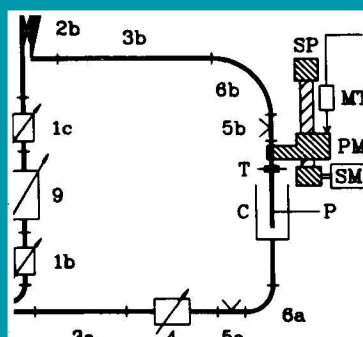

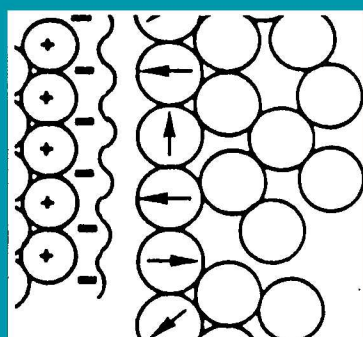

**Peptide Structure from NMR**  
By Michael P. Williamson and Jonathan P. Waltho 227

**Ion Pairing and Reactivity of Alkali Metal Alkoxides**  
By K.J. Msayib and C.I.F. Watt 237

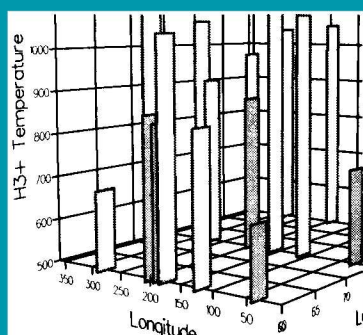

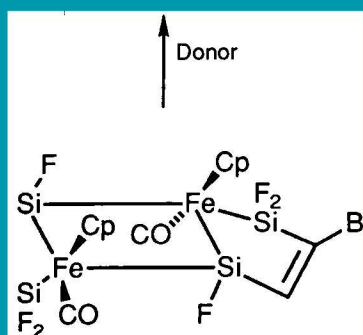

**Caged Explosives: Metal-Stabilized Chalcogen Nitrides**  
By Paul F. Kelly, Alexandra M.Z. Slawin, David J. Williams, and J. Derek Woollins 245

**Individual Solvated Ion Properties and Specificity of Ion Adsorption Effects in Processes at Electrodes**  
By B.E. Conway 253

**Dielectric Permittivity and Relaxation of Electrolyte Solutions and their Solvents**  
By J. Barthel and R. Buchner 263

**Transition Metal Complexes of Silylenes, Silenes, Disilenes, and Related Species**  
By Paul D. Lickiss 271

**H<sub>3</sub><sup>+</sup> in Space**  
By Steven Miller and Jonathan Tennyson 281

**1992 Indexes** 289

# Chemical Society Reviews

## Editorial Board

|   |                                   |
|---|-----------------------------------|
| Professor H. W. Kroto FRS<br>(Chairman) | University of Sussex              |
| Professor M. J. Blandamer               | University of Leicester           |
| Dr. A. R. Butler                        | University of St. Andrews         |
| Dr. E. C. Constable                     | University of Cambridge           |
| Professor B. T. Golding                 | University of Newcastle upon Tyne |
| Professor M. Green                      | University of Bath                |
| Professor D. M. P. Mingos FRS           | Imperial College London           |
| Professor J. F. Stoddart                | University of Birmingham          |

## Consulting Editors

|                             |  |
|-----------------------------|--|
| Dr. G. G. Balint-Kurti      | University of Bristol                            |
| Professor S. A. Benner      | Swiss Federal Institute of Technology,<br>Zürich |
| Dr. J. M. Brown             | University of Oxford                             |
| Dr. J. Burgess              | University of Leicester                          |
| Dr. N. Cape                 | Institute of Terrestrial Ecology, Lothian        |
| Professor A. Hamnett        | University of Newcastle upon Tyne                |
| Dr. T. M. Herrington        | University of Reading                            |
| Dr. R. Hillman              | University of Bristol                            |
| Professor R. Keese          | University of Bern                               |
| Dr. T. H. Lilley            | University of Sheffield                          |
| Dr. H. Maskill              | University of Newcastle upon Tyne                |
| Professor Dr. A. de Meijere | University of Göttingen                          |
| Professor J. N. Miller      | Loughborough University of Technology            |
| Professor S. M. Roberts     | University of Exeter                             |
| Professor B. H. Robinson    | University of East Anglia                        |
| Dr. A. J. Stace             | University of Sussex                             |

## Staff Editors

|                     |                                       |
|---------------------|---------------------------------------|
| Mr. K. J. Wilkinson | Royal Society of Chemistry, Cambridge |
| Dr. J. A. Rhodes    | Royal Society of Chemistry, Cambridge |

---

It is intended that **Chemical Society Reviews** will have the broad appeal necessary for researchers to benefit from an awareness of advances in areas outside their own specialities. Deliberate efforts will be made to solicit authors and articles from Europe which present a truly international outlook on the major advances in a wide range of chemical areas. It is hoped that it will be particularly stimulating and instructive for students planning a career in research. The articles will be succinct and authoritative overviews of timely topics in modern chemistry.

In line with the above, review articles will not be overly comprehensive, detailed, or heavily referenced (ca. 30 references), but should act as a springboard to further reading. In general, authors, who will be recognized experts in their fields, will be asked to place any of their own work in the wider context. Review articles must be *short*, around 6–8 journal pages in extent. In consequence, manuscripts should not exceed 20–30 A4/American quarto sheets, this length to include text (in double line spacing), tables, references, and artwork. An Instruction to Authors leaflet is available from the Senior Editor (Reviews).

Although the majority of articles are intended to be specially commissioned, the Society always considers offers of articles for publication. In such cases a short synopsis, rather than the completed article, should be submitted to the Senior Editor (Reviews), Books and Reviews Department, The Royal Society of Chemistry, Thomas Graham House, Science Park, Milton Road, Cambridge CB4 4WF.
