Chemical Society Reviews aims to foster current progress in the chemical sciences and related disciplines. The journal has the broad appeal necessary to enable scientists to benefit from recent advances made in research outside their immediate interests. In particular, students embarking on a research career should find *Chemical Society Reviews* a particularly

stimulating and instructive springboard to further reading.

The Editorial Board encourages an international and interdisciplinary approach to science, which is reflected in the succinct, authoritative articles commissioned. The Board members welcome comments and suggestions; these should be directed to the Managing Editor

Chemical Society Reviews (ISSN 0306-0012) is published bimonthly by The Royal Society of Chemistry, Thomas Graham House, Science Park, Milton Road, Cambridge, UK CB4 4WF.
