

Southampton Supramolecular Chemistry Symposium-3

From 11 am on Friday 14th July 2006
Lecture Room 1, School of Chemistry
University of Southampton

The Third Summer Symposium in Southampton on Supramolecular Chemistry
will be held on 14th July 2006.

Programme:

- 11.00** Dr Ramon Vilar (*Imperial College*)
Metalla-hosts for anionic guests: templation and recognition
- 11.45** Professor Jeremy Sanders (*Cambridge*)
Dynamic Combinatorial Chemistry: new opportunities for exploring
molecular recognition and complex chemical systems
- 12.45** Lunch
- 2.30** Dr Sijbren Otto (*Cambridge*)
Interfacing supramolecular chemistry with biology
- 3.15** Professor Kay Severin (*Lausanne*)
Metal Complexes as sensors for small ions, peptides or aminoglycosides
- 4.00** The Chemical Society Reviews Inaugural Lecture
Professor Jeffery T. Davis (*Maryland*)
Self-Assembly in Membranes: New Synthetic Ion Channels and Carriers
- 5.00** Drinks

Due to the generosity of our sponsors there is no registration fee for this meeting.
For tickets please write to:

Dr Phil Gale, School of Chemistry, University of Southampton, Southampton, SO17 1BJ

New Journal of Chemistry

A prime source of international, cutting-edge research,
encompassing all areas of the chemical sciences

- Impact factor: 2.735
- Fast times to publication
- Multidisciplinary with broad appeal
