

# Lust and Love

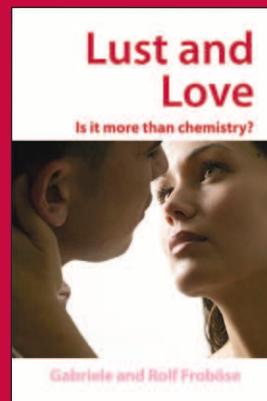

**Is it more than chemistry?**

**By Gabriele and Rolf Froböse**

**Why do people fall in love?**

**Why do we find some people attractive?**

**How does our physiology affect  
the way we feel?**

07080631

**Lust and Love: Is it more than chemistry?** provides answers to some of these questions through the eyes of science. Covering research from the fields of chemistry, biochemistry, neurology, psychiatry, psychology, physics and medicine the book looks at our current knowledge of the science behind these feelings.

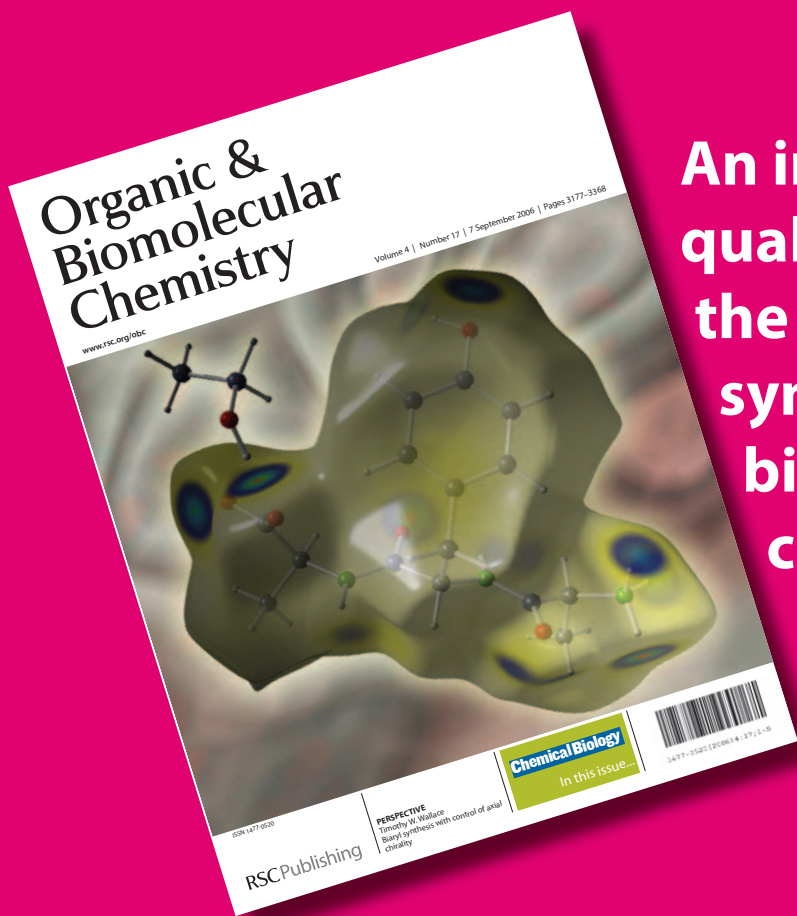

**Explores the science behind love, sex and passion**

Hardback | 2006 | xii + 170 pages | £24.95 | RSC Member Price £16.50 | ISBN 10: 0 85404 867 7  
ISBN 13: 978 0 85404 867 0

RSC Publishing

## Perspective

Creating carbon-carbon bonds with samarium diiodide for the synthesis of modified amino acids and peptides  
*Troels Skrydstrup, Denmark*

## Communications

Asymmetric hydrogenation with antibody-achiral rhodium complex  
*Akira Harada, Japan*

Planar bilayer studies reveal multiple conductance states for synthetic anion transporters  
*George Gokel, USA*

Synthesis of a versatile multifunctional building block for the construction of polyketide natural products containing ethyl side-chains  
*Stefan Bräse, Germany*

## Articles

Conformational analogues of Oxamflatin as histone deacetylase inhibitors  
*Patrick Perlmutter, Australia*

The design and synthesis of inhibitors of pantothenate synthetase  
*Chris Abell, UK*

Polycationic calix[8]arenes able to recognize and neutralize heparin  
*Francesca Cunsolo, Italy*

Selective product amplification of thymine photodimer by recognition-directed supramolecular assistance  
*Jean-Marie Lehn, France*

Exploitation of sugar ring flipping for a hinge-type tether assisting a [2+2] cycloaddition  
*Hideya Yuasa, Japan*
