

Subject Index of Volume 66

- Absorption isotherms**
removal of different basic dyes from aqueous solutions by adsorption on palm-fruit bunch particles, 223
- Acentric factors**
critical constants and acentric factors for long-chain alkanes suitable for corresponding states applications. A critical review, 35
- Advancing front model**
modeling of liquid emulsion membranes facilitated by two carriers, 11
- Air–water flows**
measurements of the speed of sound in air–water flows, 131
- n-Alkanes**
critical constants and acentric factors for long-chain alkanes suitable for corresponding states applications. A critical review, 35
- Ammonia nitrogen removal**
ammonia removal from anaerobically treated piggery manure by ion exchange in columns packed with homoionic zeolite, 65
- Analysis of steady state solutions**
synthesis of ETBE: Residue curve maps for the heterogeneously catalysed reactive distillation process, 181
- Autocatalytic reactions**
elliptic integral solutions for the kinetics of autocatalytic termolecular reactions with reactive intermediate species, 231
- Axial dispersion model**
modeling of liquid emulsion membranes facilitated by two carriers, 11
- Baffles**
local mass transfer and current distribution in baffled and unbaffled parallel plate electrochemical reactors, 1
- Basic dyes**
removal of different basic dyes from aqueous solutions by adsorption on palm-fruit bunch particles, 223
- Binary mixtures**
correlation of vapor–liquid equilibrium for systems of carbon dioxide + hydrocarbon by the corresponding-states principle, 217
- Boiler**
experimental study of a finned tubes impact gas–solid separator for CFB boilers, 159
- Boundary layer**
particle–turbulence interactions in the turbulent boundary layer for cross flow over a tube, 201
- Breakthrough curves**
potassium removal from water–methanol–polyol mixtures by ion exchange on Amberlite 252, 137
- Calcium sulphite**
model of oxygen absorption into calcium sulfite solutions, 123
- Ca(OH)₂/fly-ash sorbents**
fly-ash/calcium hydroxide mixtures for SO₂ removal: structural properties and maximum yield, 171
- Catalytic ageing**
effect of ageing on a steam reforming catalyst, 51
- Celestine**
mechanochemical processing of celestine, 79
- Elsevier Science S.A.**
- Chemical kinetics**
elliptic integral solutions for the kinetics of autocatalytic termolecular reactions with reactive intermediate species, 231
- Chemical reactors**
successful bounded control for a chemical reactor with non-linear oscillatory consecutive reactions, 27
- Circulating fluidized bed**
entrainment of solids in an internally circulating fluidized bed with draft tube, 105
- Comparative cost**
removal of different basic dyes from aqueous solutions by adsorption on palm-fruit bunch particles, 223
- Decay coefficients**
entrainment of solids in an internally circulating fluidized bed with draft tube, 105
- Degassing effect**
degassing effect and gas–liquid transfer in a high frequency sonochemical reactor, 21
- Desulfurization**
fly-ash/calcium hydroxide mixtures for SO₂ removal: structural properties and maximum yield, 171
- Diffusivity**
diffusivities of organic electrolytes in water, 111
- Draft tube**
entrainment of solids in an internally circulating fluidized bed with draft tube, 105
- Dynamic simulation**
successful bounded control for a chemical reactor with non-linear oscillatory consecutive reactions, 27
- Electrochemical reactor**
local mass transfer and current distribution in baffled and unbaffled parallel plate electrochemical reactors, 1
- Elliptic integrals**
elliptic integral solutions for the kinetics of autocatalytic termolecular reactions with reactive intermediate species, 231
- Entrainment rate**
entrainment of solids in an internally circulating fluidized bed with draft tube, 105
- Equation of state**
correlation of vapor–liquid equilibrium for systems of carbon dioxide + hydrocarbon by the corresponding-states principle, 217
- Equilibrium**
potassium removal from water–methanol–polyol mixtures by ion exchange on Amberlite 252, 137
- External loop airlift contactor**
effect of gas liquid separator and liquid height on the global hydrodynamic parameters of an external loop airlift contactor, 91
- External-loop airlift reactor**
mixing studies in external-loop airlift reactors, 97

- Fluid dynamics**
experimental study of a finned tubes impact gas–solid separator for CFB boilers, 159
- Fluidization**
experimental studies of catalytic partial oxidation of methane to synthesis gas in a bubbling-bed reactor, 193
- Fluidized bed**
experimental study of a finned tubes impact gas–solid separator for CFB boilers, 159
- Gas liquid separator**
effect of gas liquid separator and liquid height on the global hydrodynamic parameters of an external loop airlift contactor, 91
- Gas–liquid transfer**
degassing effect and gas–liquid transfer in a high frequency sonochemical reactor, 21
- Global hydrodynamic parameters**
effect of gas liquid separator and liquid height on the global hydrodynamic parameters of an external loop airlift contactor, 91
- Grinding**
mechanochemical processing of celestine, 79
- Heterogeneously catalyzed etherification**
synthesis of ETBE: Residue curve maps for the heterogeneously catalysed reactive distillation process, 181
- Homoionic zeolite**
ammonia removal from anaerobically treated piggery manure by ion exchange in columns packed with homoionic zeolite, 65
- Hydrocarbons**
correlation of vapor–liquid equilibrium for systems of carbon dioxide + hydrocarbon by the corresponding-states principle, 217
- Hydrodynamics**
local mass transfer and current distribution in baffled and unbaffled parallel plate electrochemical reactors, 1
- Hydrolysis of MeOAc**
application of a fluidized reaction–distillation column for hydrolysis of methyl acetate, 227
- Hydrous tin dioxide**
the sorption of anionic species on hydrous tin dioxide, 85
- Impact separation**
experimental study of a finned tubes impact gas–solid separator for CFB boilers, 159
- Ion exchange**
ammonia removal from anaerobically treated piggery manure by ion exchange in columns packed with homoionic zeolite, 65
potassium removal from water–methanol–polyol mixtures by ion exchange on Amberlite 252, 137
- Kinetics**
potassium removal from water–methanol–polyol mixtures by ion exchange on Amberlite 252, 137
- LDA measurement**
new stochastic particle dispersion modeling of a turbulent particle-laden round jet, 207
- LDM measurement**
new stochastic particle dispersion modeling of a turbulent particle-laden round jet, 207
- Liquid phase**
mixing studies in external-loop airlift reactors, 97
- Long-chain alkanes**
critical constants and acentric factors for long-chain alkanes suitable for corresponding states applications. A critical review, 35
- Mass transfer**
local mass transfer and current distribution in baffled and unbaffled parallel plate electrochemical reactors, 1
- Mass transfer coefficient**
mass transfer at solid dissolution, 57
- Mathematical model**
successful bounded control for a chemical reactor with non-linear oscillatory consecutive reactions, 27
- Mechanochemical processing**
mechanochemical processing of celestine, 79
- Mixing behaviour**
mixing studies in external-loop airlift reactors, 97
- Non-aqueous media**
potassium removal from water–methanol–polyol mixtures by ion exchange on Amberlite 252, 137
- Numerical simulation**
new stochastic particle dispersion modeling of a turbulent particle-laden round jet, 207
- Organic electrolytes**
diffusivities of organic electrolytes in water, 111
- Oxygen absorption**
model of oxygen absorption into calcium sulfite solutions, 123
- Palm-fruit bunch**
removal of different basic dyes from aqueous solutions by adsorption on palm-fruit bunch particles, 223
- Parallel plate cell**
local mass transfer and current distribution in baffled and unbaffled parallel plate electrochemical reactors, 1
- Partial oxidation of methane**
experimental studies of catalytic partial oxidation of methane to synthesis gas in a bubbling-bed reactor, 193
- Particle dispersion**
new stochastic particle dispersion modeling of a turbulent particle-laden round jet, 207
- Particle-laden jet**
new stochastic particle dispersion modeling of a turbulent particle-laden round jet, 207
- PDA measurement**
particle–turbulence interactions in the turbulent boundary layer for cross flow over a tube, 201
- Piggery manure**
ammonia removal from anaerobically treated piggery manure by ion exchange in columns packed with homoionic zeolite, 65
- Polyamine-type surfactant**
modeling of liquid emulsion membranes facilitated by two carriers, 11
- Process control**
successful bounded control for a chemical reactor with non-linear oscillatory consecutive reactions, 27
- Pumping capacity**
pumping characteristics of a screw agitator in a tube, 73
- Reactive distillation**
application of a fluidized reaction–distillation column for hydrolysis of methyl acetate, 227
- Reactive intermediates**
elliptic integral solutions for the kinetics of autocatalytic termolecular reactions with reactive intermediate species, 231
- Residue curve maps**
synthesis of ETBE: Residue curve maps for the heterogeneously catalysed reactive distillation process, 181
- Screw agitator**
pumping characteristics of a screw agitator in a tube, 73
- Simple reactive distillation process**
synthesis of ETBE: Residue curve maps for the heterogeneously catalysed reactive distillation process, 181

- Solid dissolution
mass transfer at solid dissolution, 57
- Sonochemical reactor
degassing effect and gas–liquid transfer in a high frequency sonochemical reactor, 21
- Sorbent utilization
fly-ash/calcium hydroxide mixtures for SO₂ removal: structural properties and maximum yield, 171
- Sorption
the sorption of anionic species on hydrous tin dioxide, 85
- Sound
measurements of the speed of sound in air–water flows, 131
- Steam reforming
effect of ageing on a steam reforming catalyst, 51
- Stochastic model
new stochastic particle dispersion modeling of a turbulent particle-laden round jet, 207
- Strontium carbonate
mechanochemical processing of celestine, 79
- Structural properties
fly-ash/calcium hydroxide mixtures for SO₂ removal: structural properties and maximum yield, 171
- Study of parameters
synthesis of ETBE: Residue curve maps for the heterogeneously catalysed reactive distillation process, 181
- Symmetric mixtures
correlation of vapor–liquid equilibrium for systems of carbon dioxide + hydrocarbon by the corresponding-states principle, 217
- Synthesis gas
effect of ageing on a steam reforming catalyst, 51
experimental studies of catalytic partial oxidation of methane to synthesis gas in a bubbling-bed reactor, 193
- Synthesis of fuel ether ETBE
synthesis of ETBE: Residue curve maps for the heterogeneously catalysed reactive distillation process, 181
- Termolecular reactions
elliptic integral solutions for the kinetics of autocatalytic termolecular reactions with reactive intermediate species, 231
- Thermodynamics
correlation of vapor–liquid equilibrium for systems of carbon dioxide + hydrocarbon by the corresponding-states principle, 217
- Transport disengaging height
entrainment of solids in an internally circulating fluidized bed with draft tube, 105
- Turbulent fluid and particle interaction
particle–turbulence interactions in the turbulent boundary layer for cross flow over a tube, 201
- Two-phase turbulent cross flow over a tube
particle–turbulence interactions in the turbulent boundary layer for cross flow over a tube, 201
- Ultrasonic reactor
degassing effect and gas–liquid transfer in a high frequency sonochemical reactor, 21
- Urea particles
mass transfer at solid dissolution, 57
- Urea solution
mass transfer at solid dissolution, 57
- Vapor pressures
critical constants and acentric factors for long-chain alkanes suitable for corresponding states applications. A critical review, 35
- Vapour–liquid equilibria
correlation of vapor–liquid equilibrium for systems of carbon dioxide + hydrocarbon by the corresponding-states principle, 217
- Void fraction
measurements of the speed of sound in air–water flows, 131
