

Subject Index of Volume 125

- Adsorption
Kinetic modelling of the adsorption of nitrates by ion exchange resin, 111
Adsorption characteristics of inorganic salts and detergents on sand beds, 177
- Advanced oxidation process (AOP)
Radicals-catalyzed oxidation reactions for degradation of recalcitrant compounds from landfill leachate, 35
- Airlift contactors
Mass transfer characteristics of a novel three-phase airlift contactor with a semipermeable membrane, 119
- Alkylation reactors
Temperature control via robust compensation of heat generation: Isoparaffin/olefin alkylation, 89
- Ammonia
Poisoning effect of some nitrogen compounds on nano-sized nickel catalysts in *p*-nitrophenol hydrogenation, 9
- Bubble column
Design of a gas distributor: Three-dimensional CFD simulation of a coupled system consisting of a gas chamber and a bubble column, 149
- 1-Butyne
Kinetic study of the liquid-phase hydrogenation of 1-butyne over a commercial palladium/alumina catalyst, 131
- Catalytic oxidation
Radicals-catalyzed oxidation reactions for degradation of recalcitrant compounds from landfill leachate, 35
- CFD
Design of a gas distributor: Three-dimensional CFD simulation of a coupled system consisting of a gas chamber and a bubble column, 149
- Co/Al₂O₃ catalyst
Kinetic modeling of steam reforming of ethanol for the production of hydrogen over Co/Al₂O₃ catalyst, 139
- Crystallisation
Crystallization of microscopic Y₂O₃ powders by different techniques of fluidization at high temperature, 25
- Dibutyl phthalate
Titanium dioxide mediated photocatalytic degradation of dibutyl phthalate in aqueous solution—kinetics, mineralization and reaction mechanism, 59
- Dispersivity
Adsorption characteristics of inorganic salts and detergents on sand beds, 177
- Distributor design
Design of a gas distributor: Three-dimensional CFD simulation of a coupled system consisting of a gas chamber and a bubble column, 149
- Dynamic pressure-step method
Experimental measurements of volumetric mass transfer coefficient by the dynamic pressure-step method in internal loop airlift reactors of different scale, 81
- Endocrine disruptor
Titanium dioxide mediated photocatalytic degradation of dibutyl phthalate in aqueous solution—kinetics, mineralization and reaction mechanism, 59
- Energy
Hydrodynamics and Metzner–Otto correlation in stirred vessels for yield stress fluids, 15
- Energy efficiency
Methane conversion in pulsed corona discharge reactors, 67
- Ethanol steam reforming
Kinetic modeling of steam reforming of ethanol for the production of hydrogen over Co/Al₂O₃ catalyst, 139
- Fenton process
Radicals-catalyzed oxidation reactions for degradation of recalcitrant compounds from landfill leachate, 35
- Finite element analysis
Study on a novel POM-based magnetic photocatalyst: Photocatalytic degradation and magnetic separation, 165
- Fluid coker
Jet configuration for improved fluidized bed stripping, 1
- Fluid mechanics
Hydrodynamics and Metzner–Otto correlation in stirred vessels for yield stress fluids, 15
- Fluidization
Crystallization of microscopic Y₂O₃ powders by different techniques of fluidization at high temperature, 25
- Fluidized bed
Jet configuration for improved fluidized bed stripping, 1
- Gas chamber
Design of a gas distributor: Three-dimensional CFD simulation of a coupled system consisting of a gas chamber and a bubble column, 149
- Gas–solid flow
Jet configuration for improved fluidized bed stripping, 1
- High temperature fluidized bed
Crystallization of microscopic Y₂O₃ powders by different techniques of fluidization at high temperature, 25
- Hydrocarbon contamination
Mass transfer characteristics of a novel three-phase airlift contactor with a semipermeable membrane, 119
- Hydrodynamic
Mass transfer characteristics of a novel three-phase airlift contactor with a semipermeable membrane, 119
- Hydrogen
Kinetic modeling of steam reforming of ethanol for the production of hydrogen over Co/Al₂O₃ catalyst, 139
- Hydrogen management
Source composite curve for waste reduction, 99
- Hydroxyl radicals
Radicals-catalyzed oxidation reactions for degradation of recalcitrant compounds from landfill leachate, 35

- Internal loop airlift reactor
Experimental measurements of volumetric mass transfer coefficient by the dynamic pressure-step method in internal loop airlift reactors of different scale, 81
- Isotherms
Adsorption characteristics of inorganic salts and detergents on sand beds, 177
- Jets
Jet configuration for improved fluidized bed stripping, 1
- Kinetics
Kinetic modelling of the adsorption of nitrates by ion exchange resin, 111
Kinetic modeling of steam reforming of ethanol for the production of hydrogen over Co/Al₂O₃ catalyst, 139
- Laminar flow
Hydrodynamics and Metzner–Otto correlation in stirred vessels for yield stress fluids, 15
- Landfill leachate management
Radicals-catalyzed oxidation reactions for degradation of recalcitrant compounds from landfill leachate, 35
- Liquid-phase hydrogenation
Kinetic study of the liquid-phase hydrogenation of 1-butyne over a commercial palladium/alumina catalyst, 131
- Magnetic photocatalyst
Study on a novel POM-based magnetic photocatalyst: Photocatalytic degradation and magnetic separation, 165
- Magnetic separation
Study on a novel POM-based magnetic photocatalyst: Photocatalytic degradation and magnetic separation, 165
- Mass transfer
Mass transfer characteristics of a novel three-phase airlift contactor with a semipermeable membrane, 119
- Methane conversion
Methane conversion in pulsed corona discharge reactors, 67
- Microscopic powders
Crystallization of microscopic Y₂O₃ powders by different techniques of fluidization at high temperature, 25
- Microstructure
Crystallization of microscopic Y₂O₃ powders by different techniques of fluidization at high temperature, 25
- Mixing
Hydrodynamics and Metzner–Otto correlation in stirred vessels for yield stress fluids, 15
- Molten carbonate fuel cell (MCFC)
Study on a new structure of the separator plate assembly for molten carbonate fuel cell (MCFC) stacks, 187
- Municipal solid waste
Radicals-catalyzed oxidation reactions for degradation of recalcitrant compounds from landfill leachate, 35
- Nano-sized nickel
Poisoning effect of some nitrogen compounds on nano-sized nickel catalysts in *p*-nitrophenol hydrogenation, 9
- Nitrates
Kinetic modelling of the adsorption of nitrates by ion exchange resin, 111
- p*-Nitrophenol
Poisoning effect of some nitrogen compounds on nano-sized nickel catalysts in *p*-nitrophenol hydrogenation, 9
- Non-linear optimization
Adsorption characteristics of inorganic salts and detergents on sand beds, 177
- Non-Newtonian fluids
Hydrodynamics and Metzner–Otto correlation in stirred vessels for yield stress fluids, 15
- Numerical analysis
Hydrodynamics and Metzner–Otto correlation in stirred vessels for yield stress fluids, 15
- Organic amines
Poisoning effect of some nitrogen compounds on nano-sized nickel catalysts in *p*-nitrophenol hydrogenation, 9
- Ozone
Radicals-catalyzed oxidation reactions for degradation of recalcitrant compounds from landfill leachate, 35
- Pd eggshell catalyst
Kinetic study of the liquid-phase hydrogenation of 1-butyne over a commercial palladium/alumina catalyst, 131
- Photocatalytic degradation
Titanium dioxide mediated photocatalytic degradation of dibutyl phthalate in aqueous solution—kinetics, mineralization and reaction mechanism, 59
Study on a novel POM-based magnetic photocatalyst: Photocatalytic degradation and magnetic separation, 165
- Pinch analysis
Source composite curve for waste reduction, 99
- Poisoning effect
Poisoning effect of some nitrogen compounds on nano-sized nickel catalysts in *p*-nitrophenol hydrogenation, 9
- Porous media
Adsorption characteristics of inorganic salts and detergents on sand beds, 177
- Process integration
Source composite curve for waste reduction, 99
- Product selectivity
Methane conversion in pulsed corona discharge reactors, 67
- Pulsed corona discharge reactor
Methane conversion in pulsed corona discharge reactors, 67
- Resin
Kinetic modelling of the adsorption of nitrates by ion exchange resin, 111
- Scale-up
Experimental measurements of volumetric mass transfer coefficient by the dynamic pressure-step method in internal loop airlift reactors of different scale, 81
- Separator plate assembly (SPA)
Study on a new structure of the separator plate assembly for molten carbonate fuel cell (MCFC) stacks, 187
- Solids immobilization
Mass transfer characteristics of a novel three-phase airlift contactor with a semipermeable membrane, 119
- Source composite curve
Source composite curve for waste reduction, 99
- Stack
Study on a new structure of the separator plate assembly for molten carbonate fuel cell (MCFC) stacks, 187
- Stripping efficiency
Jet configuration for improved fluidized bed stripping, 1
- Structure
Study on a new structure of the separator plate assembly for molten carbonate fuel cell (MCFC) stacks, 187
- Targeting
Source composite curve for waste reduction, 99
- Temperature control
Temperature control via robust compensation of heat generation: Isoparaffin/olefin alkylation, 89
- TiO₂ semiconductor
Titanium dioxide mediated photocatalytic degradation of dibutyl phthalate in aqueous solution—kinetics, mineralization and reaction mechanism, 59

Vibrated fluidization

Crystallization of microscopic Y_2O_3 powders by different techniques of fluidization at high temperature, 25

Volumetric mass transfer coefficient

Experimental measurements of volumetric mass transfer coefficient by the dynamic pressure-step method in internal loop airlift reactors of different scale, 81

Waste reduction

Source composite curve for waste reduction, 99

Wastewater purification

Titanium dioxide mediated photocatalytic degradation of dibutyl phthalate in aqueous solution—kinetics, mineralization and reaction mechanism, 59

Water management

Source composite curve for waste reduction, 99
