### MICROFILM SETS OF PERIODICALS

The Committee on Scientific Aids to Learning, President James B. Conant of Harvard University, Chairman, has made a grant to cover the cost of making a microfilm master negative, on the most expensive film, of sets of volumes of scientific and learned journals.

This permits the non-profit Bibliofilm Service to supply microfilm copies at the sole positive copy cost, namely, one cent per page for odd volumes, or a special rate of half a cent per page for any properly copyable ten or more consecutive volumes.

The number of pages will be estimated on request to the American Documentation Institute, in care of the offices of Science Service, 2101 Constitution Avenue, Washington, D. C.

### ERRATA

*Volume 25, Number 2, October, 1939*

*Page 173, table 4:*

- For "K/K<sub>w</sub>" substitute "10<sup>5</sup>K".  
 For "8.1" (opposite *m*-Methoxybenzoic acid) substitute "9.0".  
 For "*p*-Hydroxycinnamic acid" and "*p*-Methoxycinnamic acid" substitute "*m*-Hydroxycinnamic acid" and "*m*-Methoxycinnamic acid".
