

## SUBJECT INDEX FOR VOLUME 67, 1967

- Acetylene-metal (groups III-V) complexes, 73  
Aldehyde-glycerol condensation products, 427  
Allenenes, chemistry of, 317  
Anthracene, crystalline, ultraviolet properties of, 581  
Aryl esters and amides of carboxylic acids, photochemical rearrangement, 599  
Benzoquinone, 2,3-dichloro-5,6-dicyano-, 153  
Bond dissociation energies of group IIA diatomic oxides, 707  
Carbodiimides, chemistry of, 107  
Carboxylic acids, aryl, vinyl, and substituted vinyl esters and amides of, photochemical rearrangement, 599  
Chemical thermodynamic properties of plutonium compounds, 261  
Condensation products of glycerol with aldehydes and ketones, 427  
Correlation of entropy of fusion of molecular crystals with molecular structure, 565  
Crystalline anthracene, ultraviolet properties of, 581  
Crystalline solids, thermal diffusion in, 681  
2,3-Dichloro-5,6-dicyanobenzoquinone and its reactions, 153  
Dimethyl sulfoxide oxidations, 247  
Diatomic oxides, group IIA, bond dissociation energies, 707  
*m*-Dioxan-5-ols, 2-substituted, 427  
1,3-Dioxolane-4-methanols, 2-substituted, 427  
Electrode kinetic aspects of the Kolbe reaction, 623  
Entropy of fusion of molecular crystals with molecular structure, 565  
Fluorides, nitrogen, derivatives of, 665  
Glycerol-aldehyde and ketone condensation products, 427  
Hop constituents, chemistry of, 19  
Imidazole nucleosides and nucleotides, 533  
Ions in pure and mixed solvents, nmr, 367  
Ketone-glycerol condensation products, 427  
Kolbe reaction, electrode kinetic aspects, 623  
Molecular crystals and structure, correlation of entropy of fusion of, 565  
Nitrogen fluorides, derivatives of, 665  
Nuclear magnetic resonance of ions in pure and mixed solvents, 367  
Nucleosides, imidazole, 533  
Nucleotides, imidazole, 533  
Organometallic acetylenes of the main groups III-V, 73  
2-Oxazolidones, 197  
Oxidations, with dimethyl sulfoxide, 247  
Pectic substances, chemistry and biochemistry, 465  
Phenoxy radicals, stable, chemistry of, 475  
Photochemical rearrangements of aryl, vinyl, and substituted vinyl esters and amides of carboxylic acids, 599  
Picrotoxinin and related substances, 441  
Plutonium compounds, chemical thermodynamic properties of, 261  
Plutonium nitrate solutions, radiation chemistry of, 299  
Quinacridones, 1  
Radiation chemistry of plutonium nitrate solutions, 299  
Resonance, nuclear magnetic, of ions in pure and mixed solvents, 367  
Review articles, 361  
Stable phenoxy radicals, chemistry of, 475  
Tetracyanoethylene, chemistry of, 611  
Thermal diffusion in crystalline solids, 681  
Ultraviolet properties of crystalline anthracene, 581  
Vinyl esters and amides of carboxylic acids, photochemical rearrangement, 599

*Chemical Reviews Indexes.*—Each annual volume has its own author and subject indexes in the December issue. A cumulative index for Volumes 1 through 60 was published in the December 1960 issue. The next cumulative index will appear in December 1970.

The cumulative index for all years through 1960 may be purchased for \$5.00 from the Special Issues Sales Department, American Chemical Society, 1155 Sixteenth St., N.W., Washington, D. C. 20036.

## ERRATUM

*Volume 64, 1964*

Anionic Free Radicals. By B. J. McClelland

*Page 312:* Equation 35 should read

$$\det |H_{\mu\nu} - S_{\mu\nu}[(E + 2e^2)/(r_\mu + r_\nu)]| = 0$$
