# ADDITIONS AND CORRECTIONS

**Malcolm E. Davis and J. Andrew McCammon.** Electrostatics in Bimolecular Structure and Dynamics (*Chem. Rev.* **1990,** *90,* 509).

In our review, a factor of one-half and an exponent were inadvertently dropped from eqs 9 and 10. They should read as follows:

$$G_{DH} = \frac{q^2}{8\pi}\left[\frac{1}{\epsilon_s a(1 + \kappa a)} - \frac{1}{\epsilon_i a}\right] \tag{9}$$

and

$$\Delta G_{DH} = \frac{q^2}{8\pi}\left[\frac{1}{\epsilon_s a(1 + \kappa a)} - \frac{1}{\epsilon_0 a}\right] \tag{10}$$
