During the proofs stage of the paper by R. K. O. Sigel et al., an error was introduced into the footnotes on p 3100. Roland K. O. Sigel is the corresponding author and should be contacted for information on the equilibrium measurements. Barbara Nawrot and Andrzej Okruszek should be contacted for information on the synthesis of $pU_{p(s)}U^{3-}$. We thank R. K. O. Sigel for bringing this to our attention.
