Activation of the Disulfide Bond and Chalcogen–Chalcogen Interactions: An Experimental (FTICR) and Computational Study

Chem. Eur. J., 2007, 13

DOI: 10.1002/chem.200600733

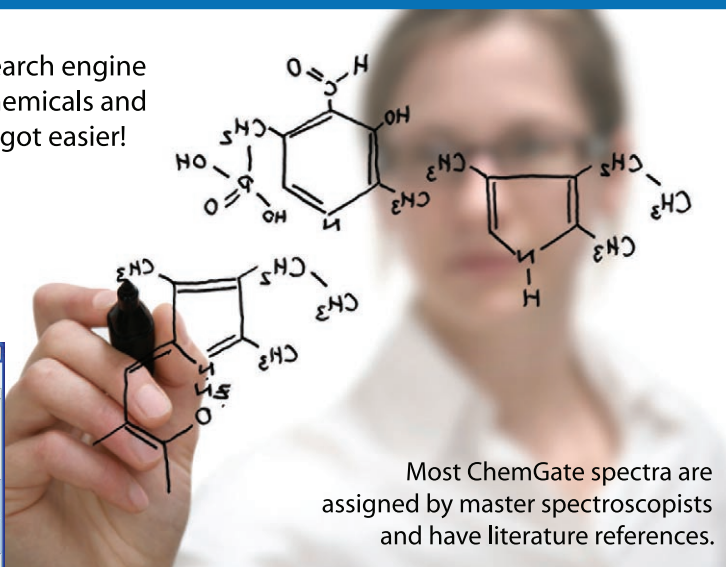

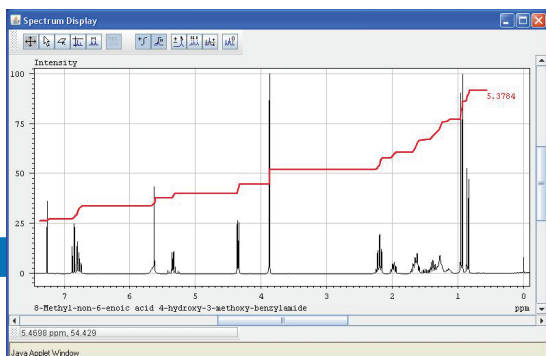

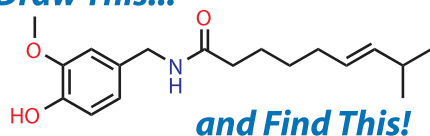

In our Full Paper published in 2007 we should have included a paper entitled “Electron Capture Dissociation of the Disulfide Bond—A Quantum Chemical Model Study” (E. Uggerud, *Int. J. Mass Spectrom.* 2004, 234, 45–50) in our references. We thank Prof. Uggerud for drawing our attention to this work.
