

ERRATUM

DEAR READERS!

To the article in *Chemistry of Heterocyclic Compounds, Vol. 43, No. 4, 2007* on page 499 should read:

SYNTHESIS AND CHEMICAL CONVERSIONS

OF 2-BROMO-6-PHENYLIMIDAZO[2,1-*b*]-

[1,3,4]THIADIAZOLE

M. A. Kukaniev, R. Rakhmonov, S. Safarov, Yu. Khodzhibaev, and D. M. Osimov

*The interaction of 2-amino-5-bromo-1,3,4-thiadiazole with ω -bromo-acetophenone leads to 2-bromo-6-phenylimidazo[2,1-*b*][1,3,4]thiadiazole. The bromine atom in position 2 of 2-bromo-6-phenylimidazo[2,1-*b*][1,3,4]thiadiazole is readily substituted by the action of secondary amines.*
