Ashim K. Dutta, Thaotrang Ho, Liqin Zhang, and Pieter Stroeve: Nucleation and Growth of Lead Sulfide Nano- and Microcrystallites in Supramolecular Polymer Assemblies.

The caption for Figure 7 in this article (*Chem Mater.* **2000**, *12*, 1042–1048) should be corrected as follows:

Figure 7. Transmission electron micrographs of a PDDA-PSS film exposed to (b, bottom) 2 and (a, top) 8 reaction cycles. The bar size in the photograph corresponds to (b, bottom) 400 and (a, top) 760 nm. The $\text{Pb}(\text{NO}_3)_2$ concentration was 4 mM.
