

Additions and Corrections

1999, Volume 11

Shirley A. Rodríguez and Luis Colón: Study of the Solution in the Synthesis of a Sol-Gel Composite Used as a Chromatographic Phase.

Statements made in this article (*Chem. Mater.* **1999**, *11*, 754; lines 15–19 on page 758) should be corrected to read as follows:

An overall rate constant of $2.0 (\pm 0.2) \times 10^{-2} \text{ L mol}^{-1} \text{ min}^{-1}$ was obtained for TEOS compared to $1.1 (\pm 0.2) \times 10^{-3} \text{ L mol}^{-1} \text{ min}^{-1}$ for the C8-TEOS system. The hydrolysis of TEOS proceeds at a rate 2 times faster than C8-TEOS.
