2005, Volume 17

Jeffrey R. S. Brownson, M. Isabel Tejedor-Tejedor, and Marc A. Anderson: Photoreactive Anatase Consolidation Characterized by FTIR Spectroscopy

Please note the following correction to this article (*Chem. Mater.* **2005**, *17* (25), 6304).

On page 6306, second column, within the paragraph that begins "Figure 3 shows the region", the third sentence should read "Comparing Figures 2 and 3, bands at ~ 1582 and ~ 1330 cm^{-1} along with a weak band at ~ 1006 cm^{-1} are proposed to be assigned to νCO_{II} , $\nu\text{CO}_{\text{I}} + \delta\text{O}_{\text{I}}\text{CO}_{\text{II}}$, and νCO_{I} modes of a bidentate carbonate (CO_3^{2-}) surface species, respectively." The text currently reads "... ~ 1582 and ~ 1230 cm^{-1} ..." This was a typographical error and is not reflected in the accompanying Figure 3.
