

Additions and Corrections

2009, Volume

Anna Maier, A. Raman Rabindranath, and Bernd Tieke*:
Coordinative Supramolecular Assembly of Electrochromic Films
Based on Metal Ion Complexes of Polyiminofluorene with
Terpyridine Substituent Groups.

This paper was withdrawn at the request of the Editor-in-Chief because of overlapping parts with one of the authors' previous publications. The authors have been given the chance to resubmit the manuscript as an abbreviated version.
