## SUBJECT INDEX

- Amino acids  
Complex compounds of platinum(II) and (IV) with amino acids, peptides and their derivatives 17
- Chloromercury(II) anions  
Chloromercury(II) anions 533
- Chromium(IV) complexes  
Redox chemistry of chromium(IV) complexes 651
- Cobalt(III)  
The linkage isomerism of thiocyanate bonded to cobalt(III) 587
- Coordination compounds  
Electrosynthesis of coordination compounds by the dissolution of sacrificial metal anodes 65
- Copper(I) complexes  
Photochemistry of copper(I) complexes 303
- Cyclopentadienyl titanium carboxylates  
Coordination chemistry of cyclopentadienyl titanium carboxylates and related complexes 93
- Electrosynthesis  
Electrosynthesis of coordination compounds by the dissolution of sacrificial metal anodes 65
- Enzymes  
Structural aspects of thiamine, its derivatives and their metal complexes in relation to the enzymatic action of thiamine enzymes 429
- Grignard reagents  
Structural aspects of Grignard reagents 287
- Gutmann  
A celebration of inorganic lives. Interview of Viktor Gutmann 1
- Heme proteins  
Resonance Raman spectra of highly oxidized metalloporphyrins and heme proteins 685
- Linkage isomerism  
The linkage isomerism of thiocyanate bonded to cobalt(III) 587

- Magnesium ions**  
Biological coordination chemistry of magnesium, sodium and potassium ions. Protein and nucleotide binding sites 165
- Manganese(III) complexes**  
Oxidation reactions of mononuclear manganese(III) complexes 399
- Metalloporphyrins**  
Resonance Raman spectra of highly oxidized metalloporphyrins and heme proteins 685
- N<sub>6</sub> macrocycles**  
Coordination chemistry of N<sub>6</sub> macrocycles 129
- N-heterocyclic bridging ligand**  
Influence of peripheral ligands on the metal-metal interaction in dinuclear metal complexes with N-heterocyclic bridging ligands 517
- Organometallic aqua ions**  
Organometallic aqua ions of the transition metals 623
- Organotin(IV) complexes**  
The chemistry and applications of organotin(IV) complexes of phosphorus-based acids 809
- Peptides**  
Complex compounds of platinum(II) and (IV) with amino acids, peptides and their derivatives 17
- Peripheral ligands**  
Influence of peripheral ligands on the metal-metal interaction in dinuclear metal complexes with N-heterocyclic bridging ligands 517
- Phosphorus-based acids**  
The chemistry and applications of organotin(IV) complexes of phosphorus-based acids 809
- Phosphorus(III) ligands**  
Bonding and energetics of phosphorus(III) ligands in transition metal complexes 737
- Platinum(II)**  
Complex compounds of platinum(II) and (IV) with amino acids, peptides and their derivatives 17
- Platinum(IV)**  
Complex compounds of platinum(II) and (IV) with amino acids, peptides and their derivatives 17
- Potassium ions**  
Biological coordination chemistry of magnesium, sodium and potassium ions. Protein and nucleotide binding sites 165
- Sacrificial metal anodes**  
Electrosynthesis of coordination compounds by the dissolution of sacrificial metal anodes 65
- Sodium ions**  
Biological coordination chemistry of magnesium, sodium and potassium ions. Protein and nucleotide binding sites 165
- Technetium complexes**  
Structural survey of technetium complexes 325
- Tellurium chemistry**  
Intramolecular coordination in tellurium chemistry 469
- Thiamine**  
Structural aspects of thiamine, its derivatives and their metal complexes in relation to the enzymatic action of thiamine enzymes 429
- Thiocyanate**  
The linkage isomerism of thiocyanate bonded to cobalt(III) 587
- d<sup>5</sup> Transition metal complexes**  
Electron paramagnetic resonance studies of low-spin d<sup>5</sup> transition metal complexes 203
- Transition metal polyhydride complexes**  
Transition metal polyhydride complexes: a theoretical view 845
