ACTION REPLAY
POKES BOOKLET

Welcome! This marvellous little booklet contains no less than 403 POKEs covering 300 C64 games! It spans almost a decade of entertainment software, from humble classics such as *Lazy Jones* and *Gyrfuss* to more recent blockbusters like *Midnight Resistance* and *Creatures*. It is, undoubtedly, the largest collection of POKEs ever, ever, compiled for the C64. Ever. It eats all other POKEs lists for breakfast! Accept NO imitations! This booklet is the dog's... er... business! Commodore Format, as always, delivers the goods.

There is a catch, however: the POKEs contained herein are designed only for use with the Action Replay cartridges. Expert cartridges and other similar devices, if you don't own such a utility then you cannot use the POKEs (unless of course you are a psychic genius). Maybe you should consider buying one of these technological marvels, because life without an Action Replay cart is a bit like skiing without posey sunglasses!

You should find the booklet unbelievably easy to use - all the games are catalogued in alphabetical order, and there is a comment with each POKE to tell you exactly what they do (in most cases, they give you infinite lives).

SO HOW DO I USE THEM THEN?

All of the POKEs in this booklet have been developed using the astounding Action Replay. If you have such a cartridge, simply freeze the program (ideally in mid-game, not on the title screen where most cartridge protection is active) with the left hand button. Then select 'E' from the freeze menu. The word POKE will appear - just type in the POKE as seen in the booklet, then press Return. There may be more than one POKE for a particular game - feel free to enter any - or all - of them.

In some cases you may be required to enter two POKEs to attain one result (ie, two separate POKEs for infinite lives). Then restart the game using F3. It's simple!

Of course, the method of entering POKEs will differ from cartridge to cartridge, so consult your user guide if in doubt.

This booklet was compiled by Andrew Roberts, a veritable guru as far as GameBusting is concerned. His expertise ensures that this booklet will help you get the most out of your software. And he's tested all the POKEs - yep, they all work!

Have fun!

And there you go! 300 games well and truly POKEd to death – hope you find it useful.

Remember, if you ever find any invaluable Action Replay POKEs yourself, please send them in to Andy Dyer at GameBusters. There are special £20 mail order vouchers waiting to be sent to worthy POKEsters!

And why stop at POKEs? We're always on the lookout for maps, tips, cheats or anything vaguely GameBusting. So bundle your goodies in an envelope and post it to:

**GAMEBUSTERS
COMMODORE FORMAT

Er... that's it.

5 Action Replay Cartridges To Be Won!

You've got the games, you've got the booklet... but, aah, maybe you've not got an Action Replay cartridge! Oh, no! Well, answer these five questions and you could be a lucky Action

Replay cartridge winner, thanks to Datel Electronics. Head scratchin' time, here we come...

In which port would you put an Action Replay cartridge?

- (a) The Expansion port
- (b) The cassette port
- (c) Dover

Put your answer on the back of a postcard and send it to us by no later than Friday 21st April at this address:
