#### **20.** LINGERIE LOVE AFFAIR

Perhaps you don't really think about your lingerie as you slip it on, but rather, you simply think about what you're wearing to work or class and select a bra and panties to match. Gorgeous lingerie, however, can be a crucial part of creating blissful moments throughout your life.

#### **30.** HOW TO ANNOY YOUR BOSS

My unemployed roomate has compiled this Guide on How to Annoy Your Boss. He is an expert at this subject, as he has been fired from numerous institutions of higher and lower education.

#### **34. DESIRED CARS**

Everyone dreams of owning an exotic car we will show you the best to drool over.

#### **36.** IS HE CHEATING

When a man is cheating on a woman, there are always signs. In fact, most of these signs are clearly visible. The problem is that it is easy to explain most of them away especially if you still love and trust him. Here are some of the obvious signs of cheating?

#### **38.** GSX-R 1000

Suzuki left a long knee-dragging mark on the world of bike racing with their GSX-R1000.

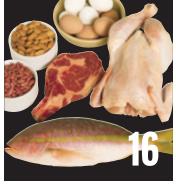

#### **FEATURES:**

#### **24.** MEGGAN MALLONE

Meggan is an outgoing, gorgeous green-eyed brunette who is 5'8' tall with a slender and athletic body. Once a cheerleader at Houston's Lamar High

#### **32.** Charlie Lane

For most of my her life she lived in the "mid-west" and has been very happy! Charlie started modeling and dancing at a young age and did alot of different types of shows and won many awards. When she turned 18, She decided to try out nude modeling, it wasn't her only option but you know what? Charlie figured, why not try it out and see where it can go?

#### **MISS FEENEY'S TIES**

Normally a tie makes a terribly boring gift, but Miss Feeney makes them irresistible! At first Miss Feeney's ties look like your classic business attire, but flip them up to reveal a concealed sexy surprise. Pick a pattern and a pinup beauty that suits your style for any occasion.

#### LOUIS VUITTON ROBUSTO BAG

It's a tough endeavor to try and find business cases that have enough utility and storage to make them worthwhile, yet are masculine enough to look great with a suit. The Louis Vuitton Robusto Bag (\$1640) does a great job of hauling around papers, gadgets, and the like with several compartments and pockets on the locking interior, along with a magazine pocket on the outside that also hides a smaller zippered pocket for passports, wallets, etc.

We're always on the prowl for a pai r of killer cufflinks, and we just found the best set we've seen yet. Custom made in silver, these DJ Turntable Cufflinks (\$480) will definitely set you apart from any of those other office-drone-by-dayvinyl-spinner-by-night dudes.

Based on a sketch from Steve Pre-

with Natural Motion Engineering,

unit in the heel. They're also Nike+

#### **RANDOLPH SUNGLASSES**

Sure, Ray-Ban's version might be better known, but they sure as hell aren't as tough. Randolph Aviator Sunglasses (\$99) were designed for the U.S. Military, and feature unique bayonet temples made to fit underneath headgear, lifetime-warranted solder joints, a variety of available non-polarized and polarized glass or polycarbonate lens options, including prescriptions, five different frame colors, and an included hard case and maintenance kit. If they're good enough for NASA, they're good enough for us.

#### **BELL & ROSS BR 03** TYPE AVIATION WATCH

If pilots and astronauts trust Bell & Ross Watches, then chances are they'll do just fine to suit your needs as well. The BR 03 Type Aviation Watch falls in line with the level of quality and strength you can normally expect from Bell & Ross. The carbon-coated stainless steel case features a black dial and luminescent hands and numbers. Built to withstand a large amount of pressure, the BR 03 also features 100 meters of water resistance.

#### **OAKLEY PILOT GLOVE**

It doesn't matter whether you're piloting an F-22 across the sky or a John Deere across your yard, the Oakley Factory Pilot Glove (\$80) will keep your hands protected on your journey. Upgraded at the behest of the U.S. military, this extreme glove features a full-grain leather palm with micro venting, breathable mesh and rubber exhaust ports, Airprene on the joints for superior breathability, stretch panels for a precise fit, and carbon fiber knuckle plating, in case you get into a dust-up when you land.

compatible.

#### **ZENO ACNE ZAPPER**

We've all had a mountainous zit appear the day before a big meeting, event, or date. Now you don't have to let it hold you back, at least if you've got the Zeno Acne Zapper from Tyrell (\$225). It uses ClearPoint technology that delivers just the right amount of heat to zap the bacteria causing the zit away. It takes several two and a half minute treatments over the course of at least 12 hours, but it beats the alternative of having your date stare at a filthy pus machine throughout dinner.

#### IN-HOME SAUNA

The benefits of spending time in the sauna are fairly well-known, but what's not well known is that you can get those benefits from your own home. The Infusion Three-Person Infrared Sauna (\$2300) features healing infrared heat, a magazine rack, reading lamp, AM/FM stereo with CD player, and a digital control panel for adjusting the temperature or setting the timer — all from a standard 110-volt outlet.

#### **MAGIC EYE BALM**

Fight your raccoon eyes from two sides with this potion from L'Occitane. The Magic Eye Balm (\$20) uses pure shea butter to help you ditch puffiness and dark circles while protecting and concealing with a soft tint at the same time.

#### **ASSFACE SOAP**

Whether you're needing a cheap gift for a friend, or have a hard time remembering which side is for which part, this Assface Soap (\$6) will do the trick. As you might have guessed, the bar has "Face" on one side and "Ass" on the other. Most definitely classy.

#### **DUREX CONDOM VARIETY PACK**

It might take you a while to use 'em all, but this Durex Condom Variety Pack (\$20) could definitely come in handy. You get 48 high quality condoms, all of which are stored in a Durex metal case that will help keep your bedside drawer from looking like a hooker's purse. Oh yeah, and you also get three vibrating rings for "added pleasure."

#### **EYRE BIOBOTANICS**

Shaving oil or shaving cream? Get the best of both worlds with the Eyre BioBotanics Absolute Shaving System (\$39). The organic, 100% natural shaving solution combines both Lemon Myrtle Shaving Oil and Kunzea Shaving Cream in a dualchambered can, letting you prepare your skin for the shave with the oil, then lather on the rich cream to get a smooth, close, comfortable shave

#### **GOATEESAVER**

Sculpt your most accurate chin sweater ever with the GoateeSaver (\$20). The perfect goatee is only three steps away chomp down on the mouthpiece, adjust the size, and shave around it. Actually there's four steps - step one is to lock the bathroom door so no one ever sees you with it in your mouth.

## Got Protein?

rotein is an essential macromolecule that can be likened to the building blocks of all living things. Everything you can see and touch in your body – from your hair, nails, to your skin – is largely composed of protein. To ensure the normal healthy condition of the body, one should never take proteins for granted.

#### **IUST HOW VITAL IS IT FOR LIFE?**

It is known that the human body is composed of trillions of cells, which in turn form tissues, then organs, and organ systems. Each cell operates like a mini-factory, digesting materials from food, producing energy, and creating other substances needed by the body to function and survive. So how do proteins come into play, and what do they do exactly?

Proteins are made up of chains of amino acids, life-giving stuff provided by your DNA. In a nutshell, DNA dictates what type of protein to create, and what function it will perform in the cells and in the body as a whole. At times, when there is a deficiency somewhere in the body, or if an injury occurs, protein is immediately synthesized and transported by the blood to save the day.

The average adult needs about 50 to 60 grams of protein per day (the amount found in 8 eggs.) Children require about half of that amount, while pregnant and breastfeeding moms need slightly more than the average.

Still need a bit more specific info on these macromolecules? Get to know the friendly neighborhood proteins in your body:

ANTIBODIES — Produced
by the blood, antibodies are
specialized proteins that protect
the body from disease and infection.
Part of the immune system, antibodies
become more effective if the diet is rich
in vitamins, minerals, antioxidants, and
carotenoids, such that can be found in
green leafy vegetables and fruits.

HORMONES – The many glands in the body produce different types of hormones, some of which are peptide (or protein) hormones aimed at specific jobs. Some examples are insulin (for glucose metabolism), prolactin (for milk production in mothers), and growth hormone (for building muscles and bone.)

**ENZYMES** – These are invaluable substances that speed up the metabolic processes in the body. For example, the enzyme protease helps digest larger proteins in the body, while amylase breaks up starch into basic sugar units. Other enzymes help ensure the rapid signal transmission of nerves, as well as regulate the amount of hormones produced in the body.

**MUSCLE FIBER** – The skeletal muscles are composed of millions of bundles of muscle fibers. Each muscle fiber is largely made up

Skin, hair, and nails – These are made of a strong protein called keratin, which is also the same substance that makes up the hoofs and horns of animals. This protein in the skin keeps it elastic and tough. Foods like eggs, meats, and nuts are high in the amino acid Cysteine, promoting the production of keratin to keep hair, nails, and skin healthy.

CARTILAGE — Found in between your joints, cartilage protects bones from damage and ensures smooth movement. Cartilage is largely composed of a protein called collagen, which can be found in soy milk, soy beans, and some varieties of cheese.

#### PROTEIN, NUTRITION, PROTEIN IN THE DIET, PROTEIN IN THE BODY

Proteins are more than body-builders and muscle enhancers. They perform dozens of essential processes that keep you alive and kicking. In what forms are proteins present in the body? Find out how they function, and why you should keep taking in your recommended daily doses.

#### **DESIRED**GEAR

#### STEALTH MACBOOK PRO

It's great that Apple has moved almost all their laptops over to the über-solid Unibody aluminum format, but not so great for those that liked the understated black models of MacBooks and PowerBooks past. The new Stealth MacBook Pro (\$6,000) coats the new 15-inch MBP with SofTouch material, leaving it with a no-nonsense matte black finish that any spy would be proud of. Other features include a custom matte screen, a 256GB SSD, 8GB of RAM, and an aire of exclusivity that only a limited edition run of ten units can buy.

#### **HTC HERO**

For HTC and Android , third time's a charm. The HTC Hero (\$TBA) is the handset giant's third Android phone, but arguably their first lust-worthy effort. Continuing the chin motif of the company's previous models, the Hero boasts a gorgeous new custom Android UI called Sense, a 3.2-inch HVGA touchscreen, a 5-megapixel cam with autofocus, aGPS, a 3.5-mm headphone jack, 512MB of onboard memory with microSD expansion, and Flash support.

#### **IKEY AK-39 KEYBOARD**

Boasting a Power Glove-esque design and Mil-spec credentials, the iKey AK-39 Keyboard (\$TBA) is your ticket to one-handed computing. Designed to withstand harsh electro magnetic interference, the AK-39 features a full keyboard, an integrated Force Sensing Resistor pointing device with both left- and right-click functionality, adjustable, night vision-friendly backlighting, and more.

#### **ORIGINAL SUPER BALL**

You're really never too old to play with your balls. And The Original Super Ball probably still has a place in your heart as your first. Grab a piece of nostalgia packed with 50,000 lbs of pressure—you won't believe how high you can get it to bounce. \$6

## **DESIKED** GEAK

#### THE SUREFIRE PEN II

Sure, regular pens are fine, but if you need a writing tool that can stand up to the toughest you have to offer, check out the The SureFire Pen II (\$90). A more streamlined version of the original, the SureFire II features a hard anodized aerospace-grade aluminum body with nearly-unbreakable pocket clip, a Schmidt Technology easyFLOW 9000 ink cartridge with retractable action, a nickel-plated pushbutton tailcap, and more.

#### YAMAHA NEOHD

It might not be the all-in-one home theater box of your dreams, but the new Yamaha NeoHD (\$600-\$800) is certainly a step in the right direction. This streamlined receiver features three HDMI, two component, one composite, and both optical and digital audio inputs for hooking up your gear, along with an on-screen menu system — no more silly front panel LEDs — to control it all via a simplified remote. It also packs a 5.1-capable amp for powering speakers of your choice, IR blasters for controlling all the connected gadgets, and Wi-Fi in the more upscale model.

#### **VHOLDR WEARABLE CAMCORDER**

It's no secret that you're an awesome guy who does awesome things, but wouldn't it be great to get it all on camera? The VholdR Wearable Camcorder records 2 hours of TV quality audio and video and can be mounted to a helmet, ski poles, steering wheel, oars, etc. It's lightweight and durable and ideal continue reading... \$326

#### **COUNTERFEIT BILL DETECTOR**

While fewer and fewer of our transactions are cash-based these days, when you do deal with cash, it's reassuring to know that what you're getting wasn't printed on somebody's inkjet. The Counterfeit Bill Detector (\$60) helps you verify authentic greens with an UV light to show security threads and watermarks, a magnetic detector, and a 2.5X magnifier to verify microprinting.

## LINGERIE LOVE AFFAIR

#### GORGEOUS LINGERIE AND BLISSFUL MOMENTS

hen you think of lingerie, what words come to mind? Do you think sexy, playful, or romantic? Or do you think functional, practical, or necessary? Perhaps you don't really think about your lingerie as you slip it on, but rather, you simply think about what you're wearing to work or class and select a bra and panties to match. Gorgeous lingerie, however, can be a crucial part of creating blissful moments throughout your life.

Many women spend countless hours at the hair salon, the nail salon, and the spa. Why shouldn't they spend just as many hours selecting the

perfect lingerie to complement their skin tones, hair color, and figure? Gorgeous lingerie has a purpose in life that is more important than covering those personal features of your bodies that no one but your loved one should see.

Fortunately for the women of today, lingerie certainly has come a long way from the days when white was the popular color choice and practicality was the key feature. From demi cup bras to French cut panties to teddies to camis to thongs and more, women's undergarments have entered a new age and instead of plain and ugly, these items have become gorgeous lingerie designed for women of all ages and shapes to wear.

Truthfully though, lingerie or a woman's undergarments or lack thereof has always been a sensual aspect of a woman's attire. Just as candid a point would be the fact that although many men don't have the first clue as to what the difference is among brassieres, balconettes, or bustier is, surely each one of these men appreciates the look that these garments achieve once donned by a woman.

The lingerie a woman selects says a lot about the woman she is or wants to be during that particular moment in time. In fact, women can choose lingerie according to the mood they are in or according to the mood they wish to be in. Who a woman is going to be on any particular day can be influenced by her most intimate garments. She can select undergarments to boost her self-confidence or to create a feeling of desirability and sexiness. In fact, donning gorgeous lingerie before starting any day can be an instant aphrodisiac that lasts long after that initial moment.

Women can pamper themselves with different types of gorgeous lingerie, created with all kinds of fabrics and in a multitude of colors. The sheer variety to be found in the lingerie department of any store or in a store dedicated solely to women's undergarments offers endless opportunities to craft any ordinary day into one of sheer bliss and romance. While it might not be common to consider the fact that sexy lingerie offers a sense of romance, the fact is simply that it does.

Truly, nothing has more power over a woman and the way she feels than the lingerie she wears. Wearing beautiful undergarments can

provide a sense of energy or power along with an uplifting feeling of self-confidence that generates from a sense of feeling beautiful, partly due in fact to the gorgeous look of the lingerie a woman selects to wear.

From enchanted evenings of sensual bliss with the one she loves to seductive nights with the one she wants to love, a woman can shape her love life and create a sense of romance with her selection of silky, sexy lingerie. What a woman wears might not actually define who a woman is, but it certainly goes a long way in creating a mood that permeates her existence.

Gorgeous lingerie might be part of a woman's arsenal of intimate undergarments and it might not. However, if she wants the blissful moments of romance and love so often portrayed in movies and written about in romance novels, gorgeous lingerie should be a constant feature in her wardrobe.

## ASK HER...

#### When women watch porn, what turns them on?

Never mind what you've heard about women wanting "a plot" or "real couples making love." The hottest thing to watch is a woman on the receiving end of highly enthusiastic, expertly administered oral sex. The everlasting kind, with lots of manual stimulation. We like to lie back and dream we're the ones being serviced. Why

aren't we salivating over the massive members? Most of them are attached to a butt-ugly porno dude, which makes them about as appealing as a kielbasa that's been rolling down a dirty street.

#### After we make love, she finishes by herself. Am I doing something wrong?

The fact that your girlfriend is taking matters into her own hands after you two get it on makes me think she's faking it with you and then finishing the job solo. What's interesting is that she isn't trying very hard to hide it. It's like she wants you to catch her. So catch her: The next time you wake up to hip-bouncing and

heavy breathing on the other side of the bed, slip a hand onto her thigh and offer to join in. If she seems abashed, tell her she doesn't have to be, it's all good, and that if there's anything she wants from you sexually that she's not getting, all she has to do is ask.

#### She wants me to use a vibrator on her during sex. I'd rather give her an orgasm with the tool I was born with. Can we both get what we want?

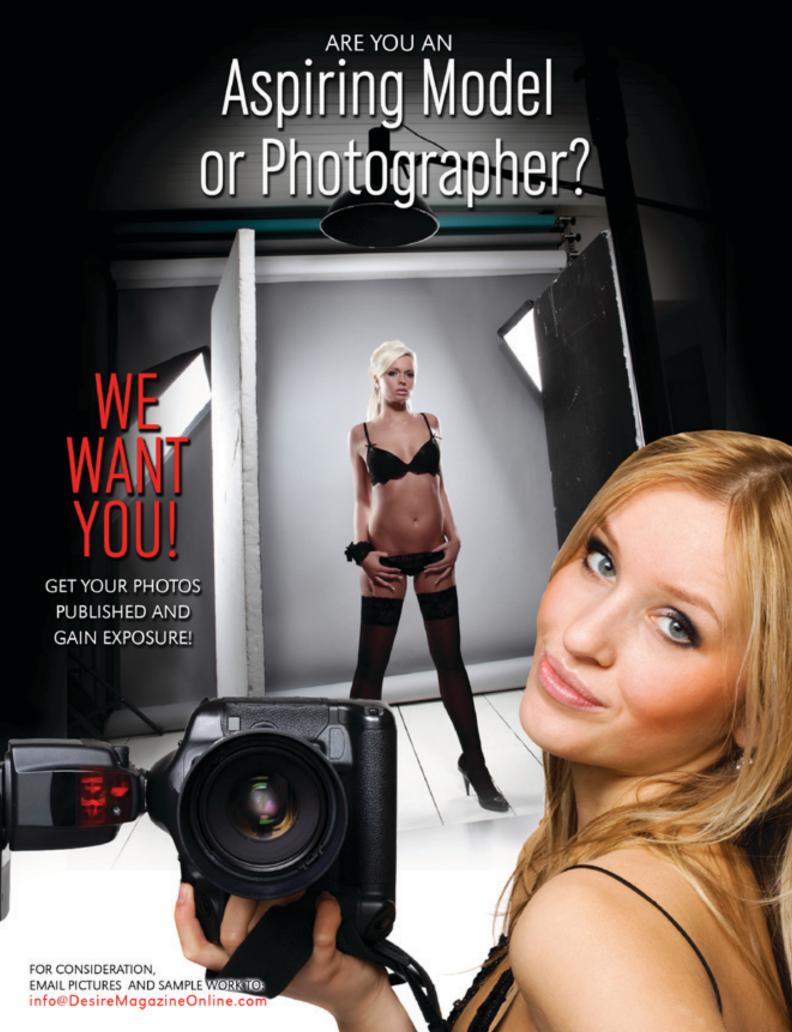

A lot of sex therapists think we train our bodies to orgasm in response to specific types of stimulation, and I happen to agree. If she's always using a vibrator to reach her peak, achieving climax without one may be difficult. You could just slip on a vibrating ring (thescreamingo.com), which would essentially turn you into a high-tech sex toy. A better strategy, though, would be to use a vibrator to tease her right up to the point of no return—and then toss the gadget aside to step in and finish the job yourself. As time goes on, try using the vibrator less and less. You'll eventually reprogram her pink computer to prefer your input.

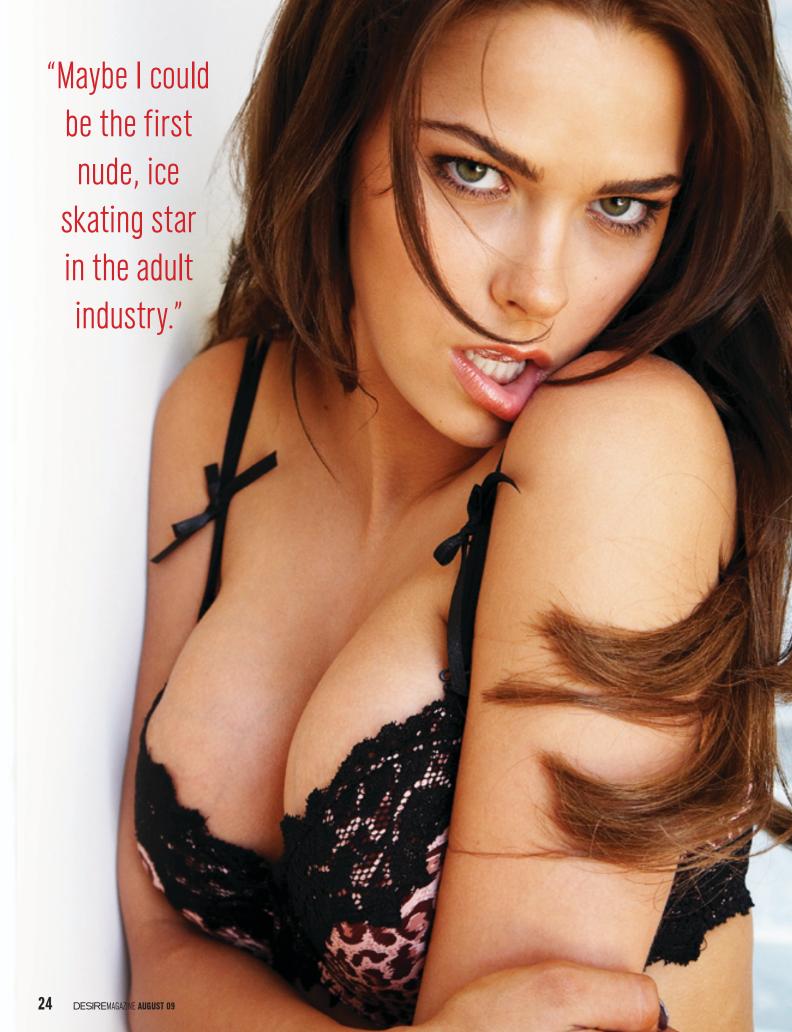

#### She wants me to pull her hair hard during sex, and do some other rough stuff. Should I go along with this?

There's fun rough and then there's messed-up rough. Sounds to me like you think she wants something closer to messed up. So, yeah, you should refuse on the principle that you don't want to inflict pain. But don't let the subject drop. Without being judgmental, ask why she likes that kind of sex, how it makes her feel, and who first introduced her to it. See if you can help her get her head around it. That kind of conversation can do a lot more for your relationship than playing the sadist.?

## I have a really small penis and I know it. Do I acknowledge that to a woman I'm about to sleep with?

Hell, no. First of all, apologizing for your penis isn't sexy. Second, who's to say she'll think it's small? Everything is relative, and most girls aren't size queens. Third, you shouldn't give her a chance to back out before you prove what you can do with it.

MEGGAN MEGGAN Meggan's mother is a full-blooded Cherokee from Oklahoma, who gave her the Indian name "Moonstar." Meggan says her Irish-German father, who died when she was 18, instilled in her a strong work ethic and taught her to make her own decisions.

Meggan had a pretty normal childhood, which included church on Sundays and frequent Girl Scout outings. In addition to being a high school cheerleader she competed on the swim team, was a member of the French Club and worked on the school student-run TV news channel as a producer and on-air reporter.

"My friends say that I'm bubbly and animated and I think they're right," says Meggan. "I have a lot of energy and love sports and definitely have a positive attitude towards life. I'm certainly excited about being a Vivid Girl and hope to break some of the stereotypes people have about adult stars. I can only say, watch out world, I'm coming!" The multi-talented actress once had dreams of being a famous ice skater and now as a Vivid Girl she jokes, "Maybe I could be the first nude, ice skating star in the adult industry."

## ANNOY YOUR BOSS

y unemployed roomate has compiled this Guide on How to Annoy Your Boss. He is an expert at this subject, as he has been fired from numerous institutions of higher and lower education.

**DON'T SHOW UP ON TIME:** Bosses usually like their employees to show up on time...say at 8 AM. Never turn up at your work place until at least an hour after you were supposed to be there. Explain that you have difficulty in waking up before 9. Please note: if you are working at a job where they don't seem to notice you being late, keep the job.

**LEAVE EARLY:** A companion to showing up late, always leave work early. Thus, an eight hour work day can be trimmed to at least 6 hours. It is especially important to leave early enough to avoid last minute crisis around the work place. This especially annoys bosses.

**TAKE LONG LUNCHES:** The long lunch is a tradition on Wall Street, and you can see the result if your life savings is in mutual funds. Leave around 11 AM and wander back into the work place around 2:30. And bring your lunch back with you. With the combination of arriving late,

leaving early, and taking long lunches you can get at least 2 hours of work time per day.

**HARASS YOUR FELLOW EMPLOYEES:** Show up nude to work.

**EXHIBIT UNPLEASANT HABITS:** Smoking will usually work. If you don't smoke, try eating peanuts and leaving the shells all around you. Getting up and scratching your butt also works.

#### PRETEND YOU DON'T SPEAK THE

**LANGUAGE:** A lack of comprehension of any spoken language will irritate most anyone. Then again, in most government jobs, fluency in any language is not required.

**START LOTS OF RUMORS:** Everyone hates a gossip, so start as many rumors about your boss as possible.

**FALL DOWN:** Even though companies are supposed to avoid discriminating against handicapped people, they don't want to pay large health insurance premiums. Fall down a lot, especially during routine errands like going for a drink.

**BREAK EQUIPMENT:** Companies invest tons of money in computers and other equipment. Use a hammer to change the toner cartridge. Put magnets on top of your computer.

#### **FILL YOUR DESK UP WITH PERSONAL**

**ITEMS:** To get work done, you must have a clean desk. Fill your desk with pictures of your kids, dogs, cats and relatives. Build a small shrine to the Virgin of Guadalupe, complete with candles.

#### **REFUSE TO CARRY A CELL PHONE OR**

**BEEPER:** Many businesses wish to stay in contact with you when you are not at the work place. NEVER LET THEM DO THIS! Being in instant communication with your work place means more work. Sooner or later they will want to get hold of you, and won't be able to. This will make them mad.

**WHEN THERE IS A CRISIS...HIDE:** Being around when things get sticky is the way to success. As soon as a crisis breaks out, hide in the bathroom, or just go home.

**MESS UP REPORTS WITH NUMBERS:** Stick random numbers into any report that requires numbers.

## IS HE CHEATING?

WHEN A MAN IS CHEATING ON A WOMAN, THERE ARE ALWAYS SIGNS. IN FACT, MOST OF THESE SIGNS ARE CLEARLY VISIBLE. THE PROBLEM IS THAT IT IS EASY TO EXPLAIN MOST OF THEM AWAY ESPECIALLY IF YOU STILL LOVE AND TRUST HIM. WHAT ARE SOME OF THE OBVIOUS SIGNS OF CHEATING?

nfortunately, all too often, the happy couple begins to drift apart and the man begins to cheat on his woman. Of course, it can happen the other way around as well. How can a woman tell if her man is cheating on her? Are there signs that can tell her that he is cheating? If there are, what are these signs? Is it easy to see the signs that he is stepping out on you? These are important questions for any woman who wonders if her man is indeed cheating on her.

The quick and easy answer to most of the questions is yes. It is possible to see these signs and to recognize them for what they are. Unfortunately, sometimes it is easier and less painful to ignore these signs and try to go on as if nothing is amiss. For the women who would prefer to know once and for all, here are

a few tips that will let you know what to look for if your man has decided to sample love with someone else.

#### **SHARING FEWER MEALS TOGETHER**

Many couples attempt to share as many meals as possible together especially if they both work. In fact, even if they cannot eat some of these meals together, they make an effort to spend time together talking on the phone or texting. Once the relationship begins to suffer the interference of another love interest, the phone calls become fewer and far between. Plus, sharing fewer meals together becomes more commonplace in their lives as the desire to rush home to share a meal and the events of the day no longer exists.

#### **LEAVING EARLIER AND ARRIVING LATER**

In the same vein of thought, a man who is cheating will often get up earlier to leave for his work day in order to avoid the need for communication with his woman. Knowing that he is cheating on her, it is easier to avoid her than to look her in the eyes. The same idea carries into his arrival home from the workday. It is even quite likely that he is meeting his new love interest for a cup of coffee in the morning and cocktails in the evening.

" It is even quite likely that he is meeting his new love interest for a cup of coffee in the morning and cocktails in the evening."

#### SPENDING ENTIRE EVENINGS OR NIGHTS APART

Perhaps you have even noticed that your man has suddenly discovered new hobbies that take him away from home for entire nights. Since when did he suddenly discover that he likes golf, pool, cards, and reading? Even two nights spent away from home without you when he never spent any before can be indicative that his interest is wandering even if he hasn't acted on it yet.

#### **STRANGE SCENTS, STAINS, OR ITEMS**

Has your man been coming home with a strange scent to his clothing that he blames on someone at work? Did you really fall for that line? Perhaps he has been hooking up with a woman who uses a unique perfume or body spray. Perhaps he has been spending time in a location with distinctive odors. Perhaps it is time that you find out for yourself by asking to meet this person or visit this location

Have strange items been showing up in the trunk or glove box of your man's car? Have you been wondering why he suddenly has a blanket and a bottle of wine in the trunk of his vehicle? Did he tell you he was holding it for someone? Are you sure that you can really believe him?

### **2010 RIZK AUTO RA**

At the intersection of Art and Science lies a common soul: Creativity. The creativity of a beautiful form. The creativity of a well executed function. The history of the Automobile spans a century of innovation and sensuous design, yet unfortunately rarely both attributes combined. The RA assimilates the best elements of the most seminally beautiful racers of the golden era with the material and manufacturing processes of current aerospace technology.

Transcending the mundane mechanics of mere transport, the RA is meant to transform every journey into a lifestyle. A lifestyle that recognizes that speed and sport have form, and that in nature there are no straight lines. The visceral experience of driving a RA; the noise, the vibration, the intimacy of the surroundings; are an affirmation of a life worth living. RA is a statement of elegant choices, of lack of pretence and of an uninhibited joy for speed.

Drowning in a sea of sharp lines and edgy Bangelized surfaces, the era of sensuous curves seems to have eluded us. Whether the inspiration is the female form, or the weathering smoothness of rocks immemorial, the human psyche resonates with flowing lines and cohesive shapes.

This yearning for elegance has led us to one of the most inspired designs in the history of the Automobile. The 1957 Aston Martin DBR2 LeMans Race car epitomizes the pinnacle of beautiful mechanical design, when cars were still being described as sexy.

The RA relies heavily on the long lost genius of master artisans, and has assuaged the design to accommodate the demands of a 21st century road car while retaining its inherent beauty.

### **DODGE CHALLENGER VAPOR BY GALPIN AUTO SPORTS**

The stealth-black Air Force Challenger 'Vapor' features thumbprint access to the Lamborghini "scissor doors", a custom Stealth body kit with Jet enhancements and a carbon fiber exterior trim. The interior of the 'Vapor' is complete with aircraft style controls, a passenger side steering wheel and the most technologically-advanced computer system with internet access, GPS tracking and exterior proximity sensors. The 'Vapor' also comes with two custom flight helmets in line with the Air Force theme of the vehicle.

### **2009 PAGANI ZONDA CINQUE**

A project born to satisfy the request of the Pagani dealer for Hong Kong SPS, an incredibile car which will be produced only in 5 (five) limited pieces, already all sold and will be street legal. It will be the first Pagani car to be equipped with sequential gearbox manageable both with paddles behind the steering and with the traditional gear stick on central tunnel. Besides, it will be the first Zonda to

use the new Pagani invention, the carbon-titanium, a special fiber purposely created for the Zonda Cinque, which will be eventually used on the new generation models. This monster has 678 hp, 780 Nm torque, forged monolock titanium wheels, bolts and nuts will fully be done in titanium and boast the Pagani logo.

The interiors are refined and at the same time reveal the sporting attitude of this car. Racing leather seats developed by Toora, 4-points seat-belts and molybdenum steel roll-bars with carbon fiber coating.

The Zonda Cinque total weight will be 20 Kg lighter then the F model, will have new Pirelli tyres, with special compounds for the car.

Suspensions and springs will be in ergal and titanium developed with the latest technology from hlins, in accordance with the Pagani specifications. Four different settings, 10 adjustments each, to separate high and low frequencies, both in compression and extention.

The body is equipped with a longer front spoiler, new designed rear wing, central air intake on monocoque, extra air intakes for rear brakes. Flat bottom and new rear air extractors will improve the downforce up to 750 Kg at 300km.

### **2009 ABT VOLKSWAGEN GOLF VI GTI**

ABT Sportsline has now been customising vehicles for five decades - and right on time for the Anniversary, the Allgäu Company is presenting the new, sixth GTI. Sporty and fast "Golfs" in particular have carried these three letters since 1976. ABT was the place to go for everyone who wanted even more dynamic and driving fun from the very beginning. The latest generation of the compact sports car also bears the magic abbreviation, and of course it is now available in a breathtaking ABT version. The engine output is impressive, because due to optimized engine management (ABT POWER), the standard 210 HP (154 kW) become a dynamic 260 HP (191 kW). ABT POWER S makes the GTI even hotter: a new turbocharger, "Made in Kempten", is used additionally in this case. The 2.0 TSI then has an output of a sporty 300 HP (221 kW) and accelerates from zero to 100 km/h in around six seconds. Thanks to ABT chassis springs, the GTI's centre of gravity is located a good 30 mm lower, so the Über-Golf can be driven even more sportily. The chassis setting, which was designed by Christian Abt, is especially good fun on winding roads. And in the extreme case, the powerful ABT braking system also kicks in.

But an ABT Golf GTI is not only a hot piece of sports equipment for the road, it also looks like one: the bodywork package that designers have created underlines the car's pure dynamics: no matter how you look at the GTI, it is always impressive. Rear spoiler and rear apron superstructure, side mouldings, front grill and apron as well as the diagonal 4-pipe exhaust system form one unit. ABT engineers also designed a front lip, which provides a power-performance in combination with the front apron and the new ABT Daytime Running Lamp. The equally elegant as expressive colouring matches this: the paintwork in carbon steel grey metallic harmonises perfectly with side mouldings and front lip in the contrast colour red.

### **09 LAMBORGHINI GALLARDO LP 550-2**

He has long been revered as one of the many legends surrounding the world's most uncompromising sports car brand – Valentino Balboni, a remarkable test driver with his own personal cult status. Automobili Lamborghini now presents a model in his honour and bearing his name – the Gallardo LP 550-2 Valentino Balboni.

The latest version of the Gallardo, Lamborghini's most successful model of all time - overall, more than 9,000 units of the model range have already been produced - boasts not only its own distinctive design and exclusive equipment, but its technology is unique too, as indicated by the model badge: the 550 stands for the power output in hp and the 2 is for rear wheel drive.

For several decades, Valentino Balboni has had a distinct influence on the character of the super sports car bearing the sign of the bull. With his fine-tuning and testing work, he has helped to shape many automotive legends, from the Lamborghini Miura of the 60s through to the current Gallardo and Murciélago models. Balboni was hired in 1967 by company founder Ferruccio Lamborghini himself. From early on, it was evident that the young Balboni had a special feel for cars, that most sensitive of all instincts that connects to the 'life blood' of an automobile and defines the soul of a test driver.

"A Lamborghini must always combine the precision of a race car with the reliability of a good friend," says Balboni. Since 1973, he has sat at the wheel of every prototype built by the brand, and even most production cars have passed through his hands before being delivered to their customers. This has turned Balboni into one of the most important representatives of the brand, with an outstanding reputation and status among the brand's fans and customers worldwide.

### 2009 FIAT 500 BIRTHDAY GIFT FOR BARBIE

Fiat 500 makes headlines once more, as befits an authentic Made in Italy icon. This time its an original Fiat 500 show car dedicated to the most famous fashion doll ever: Barbie. This exceptional vehicle, created by a partnership between the Fiat Centro Stile and Mattel, will be given officially to Barbie on 9 March next, at her fiftieth birthday celebrations in Milan.

Its a fashionista car but quite tongue-in-cheek and with lots of charm: just like Barbie herself. The gleaming paintwork resembles varnish and definitely makes for a shock effect, achieved with deep lacquered colour using ultra fine aluminium plunged in deep, up-tothe-minute pink. The seating is upholstered in strikingly soft fabrics: silver laminated Alcantara is not only trendy but plush to the touch and its glimmer bounces as far as the roof panel. Then there are mats enhanced with natural silk yarn and sleek viscose, not to mention lip glosses in brilliant colours stored in the glove compartment, plus a LED-decked vanity mirror to ensure perfect application. And there's more. The car has more features than a crown has jewels! Crystals sparkle on interior bezels, hubcaps, outer window mouldings and antenna and even outline the dolls famed silhouette on the pillars. Lastly, this Fiat 500 show car also has its own glossy cover, featuring the distinctive Sixties version of the Fiat  $500\ \text{and}\ \text{a}$ Barbie autograph.

The latest Fiat 500 show car will appear in public for the first time on Monday 9 March, from 6.30pm onwards, when it will race through the quintessential streets of Milans fashion district. Barbie will be aboard and she'll have her own special driver: Ken, of course. On

arriving at the entrance to La Rinascente department store, in Piazza Duomo, Barbie will leave the car and walk the unique pink carpet created just for her. The band Nena will be playing live in the background, reviving some of the most famous pop songs from the fifty years of the legendary fashion doll's existence.

Roberto Giolito, creator of the Fiat 500, had this to say about the Mattel-Fiat partnership scheme: All-American Ms Barbie already has a number of transport solutions available, like thundering GTs and motor homes with endless accessories. So if shes spotted a 500 and wants one as a gift for this landmark birthday, its a signal typical of modern times that theres a renewed need for dreaming the simple things in life, which give so much, allow us to lighten up, thrill whos born beautiful or just feels beautiful, but doesnt have to prove anything. After all, Barbie already has everything. Sleek Barbie is a looker, smart enough to listen to everyone, a universal ambassador opting for a car that never divides but frees everyone from having to declare their social status. The new 2009 version celebrates her birthday with a model that offers a better view of the sun and the stars, all the better for continuing to dream, especially daydreams.

### **B-16 CONCRETE BOMBER**

While targeted at the lessthan-mainstream construction equipment rental market, the B-16 Concrete Bomber (\$TBD) is simply too hardcore not to show you. Created by the Miller Spreader Company, this ride-on concrete buggy sports a WWII-inspired shark's teeth design, along with some upgraded concrete pouring features, heavy-duty machinery, and a reliable Honda engine.

### CRAFTSMAN NEXTEC HAM-**MERHEAD AUTO HAMMER**

Save your thumb. Buy the Craftsman Nextec Hammerhead Auto Hammer (\$100). Without ever taking a swing, this innovative tool hammers up to 3.5inch nails with just the pull of a trigger. Powered by a 12-volt Lithium-Ion battery, the Hammerhead works great in tight spaces and is perfect for the extremely lazy. It nails at 2000 impacts/ minute, and a retractable nail sleeve and magnetic head let you do it onehanded

Be prepared with the Tool Logic Survival Card (\$20). This credit card-sized tool packs in a 2-inch serrated knife, a magnesium alloy fire starter, a loud signal whistle. a red LED flashlight, and tweezers and a toothpick. It's like a Swiss Army knife for your wallet.

**BISSELL GARAGE PRO WET/** 

Keep your garage in check with

the Bissell Garage Pro Wet/Dry Vacuum Cleaner (\$230). This

standing vac features a 12 amp

motor for powerful suction, LED in-

dicators for power, water, and dirt

tank levels, car detailing tools for

keeping your car's inside as clean

as the outside, and a blower mode

**DRY VACUUM CLEANER** 

WRENCH MULTI-TOOL The Spyderco Byrdwrench (\$77) goes a little further than other multi-tools with a combination of one-hand open knife, slip-joint pliers, bit driver, and an adjustable crescent wrench. It's also got a rough punch file/holestarter and a steel belt clip, and can be separated into two halves to reveal four screwdriver bits inside.

### STANLEY BOLT VACUUM

Keep your favorite drink hot (or cold) and safely nearby on the job with the Stanley Bolt Vacuum Bottle (\$25). As durable as it looks, the Bolt features double wall stainless steel vacuum insulation, a built-in stainless steel handle, an 8 oz. lid that doubles as a cup, and a unique octagonal shape that prevents it from rolling around should it get knocked over.

### **HOMEHERO FIRE EXTINGUISHER**

The biggest problem with fire extinguishers might be that they're never around when you need them, since their looks demand placement in a cabinet, closet, or garage. Except for the HomeHero Fire Extinguisher (\$TBA). With sleek, modern styling and ergonomics that allow for one-handed use, the HomeHero won't look out of place in your kitchen or work area, giving you piece of mind without being an eyesore.

### SUZUKIGSX-R1000

uzuki left a long knee-dragging mark on the world of bike racing with their GSX-R1000. Winning top honors in the most highly-competitive sports on the planet – World Superbike and Superstock. From 2004 to 2008, you had to have this Suzuki to win.

Though it seemed similar to prior models, all the way back to 2001, Suzuki made significant changes in 2003 and 2007, doing such high-tech stuff as switching to an all-titanium exhaust (that saved four pounds) and making the intake fairings more streamlined for cleaner air.

It sported the longest-stroke motor of any 1000cc superbike, putting out about 210 hp in race configurations yet with plenty of torque. It's

rev limit wasn't until14,300 rpm, but thanks to the longer stroke, it developed a nice thrust of torque early. For street riders, it started separating the men from the boys as early as 7,000 rpm, and that's only half way there!

The road version was tested in 2003 to hit 60mph in 2.56 seconds and 100mph in 5.6, which is about the time it takes you to realize you're in over your head. But the race versions produced 210 hp and were timed at 200mph, making world records for such ace racers as Troy Corser, Ben Spies, Matt Mladin, Tommy Haydin, Aaron Yates, and Jake Holden. And since it was also somehow known as one of the most street-friendly superbikes (with useful mirrors, even!), you can feel like you could add your name there, too.

### **DESIRE**SCOPES

### **CAPRICORN: DECEMBER 22- JAN 19**

Cooperation and assistance in business relationships is high now and, consequently, significant growth and progress in your career is likely at this time. Communications and contacts in business and professional circles open up, with opportunities to expand your services and professional involvements. Take advantage of these opportunities because they will prove to be very beneficial. There is no need to take risks so avoid wild speculation; a very positive avenue for growth is available to you now. This growth and progress in career is very personally fulfilling and rewarding because the work is meaningful to you, not just a means of making money.

### **AQUARIUS: JAN 20- FEB 18**

Hard work and concentrated effort are required at this time. If you are able to meet the demands placed on you now, you may be able to complete a task that has been hanging over your head for a long time, and you may receive recognition and appreciation from others. However, this is definitely a difficult, challenging time and these rewards will come only as the result of constant dedication to your work. Even with dedication and perseverance, the rewards may be meager compared to what you feel that you deserve.

### **PISCES: FEBRUARY 19- MARCH 20**

This is a time when you formulate a new "strategy" or at least a major modification to your current plan. This is a time when college students change their majors, people in the business world seek new markets for their product or change their product line, and scientists decide to try a new experimental design, research method, or technique. In one way or another, you see the limits of your current approach and you make changes in it now. There is a particular emphasis on removing whatever is superfluous or wasteful.

### **ARIES: MARCH 21-APRIL 20**

Your imagination and intuition become much deeper and penetrating during this time period. This is an excellent time period for any form of imaginative work, such as fiction writing or any artistic endeavor. This is also a good time for meditation and other religious or spiritual practices. You can tap a much deeper level of sensitivity and intuition than is normally possible. This increased sensitivity is subtle in your daily life, and is most evident when you do something that draws upon your imagination, such as a creative artistic activity. You may also become very interested in some particular period in history or a particular style of art or music. A particular form of religious symbolism or ritual may grip your imagination now.

### **TAURUS: APRIL 21-MAY 20**

During this time period you are more tolerant, forgiving, and generous than usual. You feel good about yourself and are usually in a cheerful mood. Domestic life and family matters are particularly important to you now, and you are likely to spend a great deal of time with family and close friends. You may also decide to make some kind of home improvement - perhaps fixing up or expanding your home, or landscaping. You could move to a larger home or to a place where you feel happier and more at home. The nurturing side of you is highlighted, and you enjoy helping others, cooking, and baking.

### **GEMINI: MAY 21-JUNE 21**

During this time period you are planning big things for the future. You become excited about an idea that promises much greener pastures for you. Your enthusiasm and optimism are so strong that it is difficult for you to realistically evaluate the situation. If others question or doubt your plan, you quickly brush their concerns aside, as you pursue a grander vision. Hopefully, you have done your homework or else your grand dream can go up in smoke. This is an excellent time to spread your wings, to travel and visit new places. You may read something that causes you to view life in a very different light.

### **CANCER: JUNE 22- JULY 22**

An opportunity may come to you, or you may become aware of an alternative route to reaching your goals. You are likely to meet with resistance from other people, and competitors or domineering people may try to squelch any move you make. You may also form an alliance with an older or more experienced individual whose experience can aid you as well. So be careful in your work-related relationships as a stressful combination of both good and bad developments can seriously affect the course of your career. Avoid associations with individuals who may try to dominate or restrict you later.

### **LEO: JULY 23- AUGUST 23**

Getting what you really want and moving toward achieving the things which are important to you may involve surrendering something or eliminating something from your life at this time. Perhaps an attitude, a situation, or an attachment that has been impeding you is now released. You feel free to concentrate on the things that are most important to you now. Major, long-term changes can be successfully begun now - a lifestyle change or a regimen of self-improvement, for instance.

### **VIRGO: AUGUST 23-SEPTEMBER 23**

Your imagination runs wild during this time period! You are attracted to any kind of fantasy, mysticism, or imaginative work. Of course, the extent to which this affects you and the precise ways it manifests depends largely on your own personal tastes and inclinations in these matters. But regardless of your temperament, your imagination will soar at this time. Many people find that they simply must travel under this astrological influence. The same, everyday environment and routine is exceedingly irksome, and a more exotic, imaginative setting is needed.

### **LIBRA: SEPTEMBER 23 - OCTOBER 23**

You are in a jovial and fun-loving mood during this time period. You are likely to enjoy a wonderful time at a party and take part in entertaining social events. You can expect lots of laughter, jokes, and happy times with others during this period. You are likely to put chores and other responsibilities off for another day. This may annoy your spouse or other family members. Your desire to socialize and have a good time can easily clash with others' desires to have you do the work that they expect of you

### **SCORPIO: OCTOBER 23- NOVEMBER 21**

Freedom, rebellion, and resistance to authority are the key issues for this time period. You urgently want greater freedom from responsibilities in your personal life now. You may be tempted to gamble on a get-rich-quick scheme so that you won't have so many financial obligations. If you have worked for many years for a company that provides a retirement plan, you may decide to retire now. You may start up your own business so you can make your own hours. In one way or another, you are tired of years of obligations and restrictions and you feel that now is the time to fully enjoy the fulfillment of a more independent life style.

### **SAGITTARIUS: NOVEMBER 23 - DEC 21**

New ideas are likely to come to you via a number of different methods - classes, books, and discussions. You should take advantage of these opportunities to expand your mental horizons. You have the option to refuse the opportunity, but you would be foolish to do so as you will learn a great deal and it will be very enjoyable as wellso are receptive to new ideas at this time, and you also are able to see your life in a clear light. This is a good time to take stock of the general direction of your life and career and make decisions regarding any needed
