

DRUG METABOLISM AND DRUG INTERACTIONS

VOLUME 11, NO. 2, 1994

CONTENTS

	Page
Imidazolidinones Structurally-Related to Penicillins: Synthesis, Molecular Modeling and Biological Evaluation <i>Jacqueline Marchand-Brynaert, Josette Lamotte-Brasseur and Georges Dive, Belgium</i>	85
Effect of N-Tricyanovinylamines on the Level of Glutathione in Hepatocytes <i>Dušan Podhradský, Helena Paulíková, Gabriel Toth and Milan Miko, Slovakia</i>	111
The Oxidative Metabolism of Aldicarb in Pigs: In Vivo - In Vitro Comparison <i>C. Montesissa, M.B.M. Huvenneers, L.A.P. Hoogenboom, M. Amorena, M. De Liguoro and A. Lucisano, Italy and the Netherlands</i>	127
The Role of Microsomal Mixed Function Oxidases in the Metabolism and Mechanism of Action of Certain Organophosphorus Insecticides <i>E. Ershov, A. Shlosberg, V. Hanji and J. Kagan, Ukraine and Israel</i>	139
Flavoenzymes Inhibited by Indomethacin <i>Guang-Ping Chen, Scott Raybuck and Daniel M. Ziegler, USA</i>	153
Population Variability in the Pharmacokinetics of Terfenadine: The Case for a Pseudo-Polymorphism with Clinical Implications <i>P.K. Honig, J.E. Smith, D.C. Wortham, K. Zamani and L.R. Cantilena, USA</i> ...	161
