

DRUG METABOLISM AND DRUG INTERACTIONS

VOLUME 17, NO. 1-4, 2000

CONTENTS

Preface	1
Chemoprotection by Organosulfur Inducers of Phase 2 Enzymes:	
Dithiolethiones and Dithiins	
<i>T.W. Kensler, T.J. Curphey, Y. Maxiutenko and B.D. Roebuck, USA</i>	3
Effect of Organosulfur Compounds from Garlic and Cruciferous Vegetables on Drug Metabolism Enzymes	
<i>T.J. Smith and C.S. Yang, USA</i>	23
Organosulfur Compounds from Allium and the Chemoprevention of Cancer	
<i>A.-M. Le Bon and M.-H. Siess, France</i>	51
Allyl Sulfides Modify Cell Growth	
<i>L.M. Knowles and J.A. Milner, USA</i>	81
The Role of Cyclooxygenase and Lipoxygenase in Cancer Chemoprevention	
<i>M. Cuendet and J.M. Pezzuto, USA</i>	109
The Micronutrient Indole-3-Carbinol: Implications for Disease and Chemoprevention	
<i>H.G. Shertzer and A.P. Senft, USA</i>	159
Carotenoids and Chronic Diseases	
<i>S. Agarwal and A.V. Rao, Canada</i>	189
The Bioactivity of Saponins: Triterpenoid and Steroidal Glycosides	
<i>A.V. Rao and D.M. Gurfinkel, Canada</i>	211
Molecular Aspects of Procyanidin Biological Activity: Disease Preventative and Therapeutic Potentials	
<i>H. Moini, G. Rimbach, and L. Packer, USA</i>	237
Promotion of Health by Soy Isoflavones: Efficacy, Benefit and Safety Concerns	
<i>S. Goldwyn, A. Lazinsky and H. Wei, USA</i>	261
Bioavailability of Flavonoids and Potential Bioactive Forms in Vivo	
<i>C. Rice-Evans, J.P.E. Spencer, H. Schroeter and A.R. Rechner, UK</i>	291
Cancer Chemoprevention and Apoptosis Mechanisms Induced by Dietary Polyphenolics	
<i>G. Galati, S. Teng, M.Y. Moridani, T.S. Chan and P.J. O'Brien, Canada</i>	311
Effect of the Grapefruit Flavonoid Naringin on Pharmacokinetics of Quinine in Rats	
<i>H. Zhang, C.W. Wong, P.F. Coville and S. Wanwimolruk, New Zealand</i>	351
Index	365
